(Workforce Development/At-Risk Youth)

112. The Senate amendment, but not the House bill, provides that funds be expended in accordance with the State's laws and procedures.

The Senate recedes.

113. Under the Senate amendment, funds for workforce development activities will be distributed according to a formula based on the following factors: 60% of the funds based on each State's percentage share of the population aged 15 to 65 years, 20% of the funds based on each State's percentage share of individuals aged 18 to 64 years who are at or below the official poverty line, 10% of the funds based on each State's percentage share of the average unemployment rate for the previous 2 years; and 10% based on each State's percentage share of adult recipients of welfare assistance. The House bill has no comparable allotment requirement for a single grant to States, but does provide allotments to States under the three separate block grants. (See Notes 115, 116, & 117)

The House recedes with amendment inserting "(a) In General. -- The Secretary of Labor and the Secretary of Education, acting jointly, shall allot to each State that meets the requirements of section __, an amount equal to the total of the amounts made

(Assistance from Legislative counsel on possible technical changes to definitions.)

113a. Under the Senate amendment, in addition to the factors described in the previous Note, there is a provision for a State minimum allocation, so that no State receives less than 0.5% of the total allocation. However, the application of the minimum grant provision cannot result in an allotment that is larger than 150% of the product of a State's population times the national per capita payment under the formula (which is the total allocation divided by the total population). The House bill also includes State minimums in its separate grant allotments. (See Notes 115, 116, & 117)

The House recedes with amendment striking any reference to the Federal Partnership.

113b. Notwithstanding any other provision of the formula in the Senate amendment, no State would receive an increase or decrease of more than 5% in its share of funds from the previous year.

The Senate recedes.

(Youth)

115. Under the House bill's grant for youth (which includes in-school and at-risk youth), States are provided an amount of funding which bears the same ratio as the average of funds they received in fiscal year 1995 under sections 101 and 101A of the Perkins Act (basic State and tech prep grants) and sections 252 and 262 of JTPA (Title II-B Summer Youth and Title II-C Youth Training). A small State minimum of 1/4 of 1% is provided. For a description of the Senate allotment for workforce development (which includes youth) and the allotment for at-risk youth. In addition, no State would receive less than 0.25% of the amount made available for these activities. For a description of the Senate allotment which includes employment and training, see Note 113.

The House recedes.

(Agent Educaton)

117. Under the House bill's grant for adult education and literacy, States are provided an allotment of $250,000. Funds remaining after these allotments are made would be distributed to States in proportion to the adult population who are at least 16 years of age but less than 61 years, beyond the age of compulsory school attendance, do not have a high school diploma (or the equivalent), and who are not currently enrolled in school. For a description of the Senate allotment which includes adult education, see Note 113.

(a) NATIONAL RAPID RESPONSE GRANTS. -

Manager's language -- drafted by Suzanne Day:

For the purposes of awarding a National Rapid Response Grant, it is the intent of the manager's that the Secretary of Labor should develop criteria to determine if an event constitutes a "major economic dislocation." In doing so, the
Secretary should consider the number of workers affected in relation to the size and unique situation of the community affected, rather than by establishing any one threshold number. The manager's are deeply concerned that establishing an arbitrary threshold overlooks the varying impact of these kinds of events on communities of different sizes. For instance, a plant closing or other event effecting a small number of workers has a profoundly different impact on a large community as compared to a small community.

Higher Education Privatization.
486. The House bill, but not the Senate amendment, requires Sallie Mae's current Board of Directors to develop a reorganization plan for the restructuring of the Association's ownership. Current shares in Sallie Mae would be converted into shares in a newly formed Holding Company chartered in a State or the District of Columbia.

487. The House bill, but not the Senate amendment, requires that the reorganization plan be approved by the holders of a majority of Sallie Mae's outstanding stock. As defined, the "reorganization effective date" means the date determined by the Association Board of Directors pending stockholder approval, but no later than 18 months after the enactment of this section.

488. The House bill, but not the Senate amendment, clarifies that, except as specifically modified by the provisions of section 440, the provisions of section 439 of the Higher Education Act continue to apply in full force and effect to the Association during its wind-down period following the reorganization of its ownership. The Holding Company and its other subsidiaries shall not be entitled or subject to any of the rights, privileges, obligations or limitations applicable to the Association under section 439, except as specifically provided in section 440. This section clarifies that the Holding Company and its non-GSE subsidiaries shall not purchase federally-insured student loans until the Association ceases to purchase such loans, except for the Association's purchase of such loans as a lender-of-last-resort or under agreement with the Secretary of Education pursuant to section 440(c)(6).

489. The House bill, but not the Senate amendment, specifies that, as soon as practicable after the reorganization, the Association would be required to use its best efforts to transfer
to the Holding Company or its non-GSE subsidiaries all real and personal property, including intangibles held by the Association, except for property defined as "remaining property." Remaining property would include the financial, program-related assets and obligations of the Association, such as debt obligations, student loans, portfolio investments, letters of credit, outstanding swap agreements and forward purchase commitments. Such property could be transferred out of the GSE subsequently, so long as the GSE continued to maintain adequate capital to meet the requirements of section 439(r), as amended.

490. The House bill, but not the Senate amendment, specifies that at the time of the reorganization, the employees of the Association will become employees of the Holding Company or the other subsidiaries. This provision requires the Holding Company and the subsidiaries to provide management and operational support for the Association during the wind-down as requested by the Association. The Association is also specifically empowered to obtain management and operational support from persons other than the Holding Company and the subsidiaries.

491. The House bill, but not the Senate amendment, clarifies that the Association may pay dividends in the form of cash or noncash distributions to the Holding Company, just as it may pay dividends to shareholders under current law. The payment of dividends would continue to be subject to the requirements of section 439(r).

492. The House bill, but not the Senate amendment, provides that for purposes of calculating compliance with the Association's capital requirements, any distribution of noncash assets by the Association to the Holding Company is to be valued at net book value as of the date the distribution was approved by the Association's Board of Directors.

493. The House bill, but not the Senate amendment, limits the Association's ability to engage in new business activities or acquire new assets following the reorganization. Activities may
be undertaken in connection with student loan purchases through September 30, 2005; in connection with contractual commitments for future warehousing advances, where such commitments are outstanding as of the date of the reorganization; or pursuant to a letter of credit or standby bond purchase agreement that is outstanding as of such date. Activities may also be undertaken in connection with the GSE's role as lender of last resort pursuant to section 439. Finally, activities may be undertaken pursuant to agreements entered into with the Secretary of Education if the Secretary requests the Association to continue or resume its secondary market purchase program. The Secretary may make such a request only after determining that there is inadequate liquidity for loans made under Part B of Title IV of the Higher Education Act. Any such agreement shall cover a period of 12 months, but may be renewed if the Secretary determines that liquidity remains inadequate. The provision provides that the offset fee provided under section 439(h)(7) shall not apply to loans acquired pursuant to any such agreement.

494. The House bill, but not the Senate amendment, prohibits the Association from issuing new debt obligations that mature later than September 30, 2009, except in connection with fulfilling the Association's lender of last resort role or with purchasing loans under an agreement with the Secretary of Education described in the previous paragraph.

495. The House bill, but not the Senate amendment, establishes new requirements to the safety and soundness requirements currently applicable to the Association under the Higher Education Act. The GSE is required to obtain such information and keep such records as the Secretary of the Treasury may prescribe concerning any material financial risk to the Association which could reasonably result from the activities of the Holding Company or its non-GSE subsidiaries. The GSE must also keep records relating to the policies, procedures and systems used by the GSE to monitor and control such risk. The summary reports may be required by the Secretary of the Treasury, but no more frequently than quarterly.
The House bill, but not the Senate amendment, imposes requirements to ensure that a substantial degree of separation is maintained between the Association and its affiliates, including (I) the assets of the Association shall be maintained separately from those of the Holding Company and its other subsidiaries and may be used only in connection with the Association's purposes and obligations; (ii) the Association's books and records shall clearly reflect the assets and liabilities of the Association, separate from the assets and liabilities of the Holding Company and its other subsidiaries; (iii) the Association's corporate office shall be physically separate from all offices of the Holding Company and its other subsidiaries; (iv) no director of the Association who is appointed by the President may serve as a director of the Holding Company; (v) at least one of the Association's officers shall be an officer solely of the Association; (vi) transactions between the Association and the Holding Company and its subsidiaries shall be on terms no less favorable than the Association would receive from a third party; (vii) the Association shall not extend credit to the Holding Company or its subsidiaries or guarantee or provide credit enhancement for any debt of the Holding Company or the subsidiaries; (viii) any amounts collected on behalf of the Association by the Holding Company or its other subsidiaries with respect to the assets of the Association are required to be immediately deposited to an account controlled solely by the Association. No restrictions shall apply to directors of the Association not appointed by the President.

The House bill, but not the Senate amendment, provides that under no circumstances shall the assets of the Association be available to pay claims or debts incurred by the Holding Company. The above requirement shall not limit the right of the Association to pay dividends that are otherwise permissible and shall not limit any liability of the Holding Company that is explicitly provided for in Part B.

The House bill, but not the Senate amendment, limits the Holding Company's activities to the ownership of the Association and its other subsidiaries during the wind-down period, and all
business activities shall be conducted at the subsidiary level.

499. The House bill, but not the Senate amendment, gives the Holding Company, as sole shareholder of Sallie Mae, the authority to choose the shareholder-elected members of the Association's Board of Directors. The directors will not be required to meet current eligibility standards.

500. The House bill, but not the Senate amendment, requires the Holding Company to issue to the Secretary of the Treasury 200,000 stock warrants, each warrant entitling the holder to purchase a share of stock of the Holding Company at any time on or before September 30, 2009.

501. The House bill, but not the Senate amendment, provides that after the reorganization, the Holding Company shall not sell, pledge, or otherwise transfer any outstanding shares of the Association, or cause the Association to liquidate or file bankruptcy, without the approval of the Secretary of the Treasury and the Secretary of Education.

502. The House bill, but not the Senate amendment, limits the period for winding down the GSE activities of the Association to September 30, 2009. The Association may determine to cease its activities and dissolve prior to September 30, 2009, unless the Secretary of Education determines that the Association continues to be needed as a lender of last resort or continues to be needed to purchase loans in furtherance of an agreement under section 440(a)(6).

503. The House bill, but not the Senate amendment, requires at
the end of the period all of the Association's outstanding debt obligations to be transferred to a trust that will satisfy all payment obligations on the remaining debt issues which will retain the attributes accorded them by the Association's statutory charter. The Association must deposit certain qualifying assets into the trust. The assets are to be transferred irrevocably, solely for the benefit of the holders of the Association's debt obligations, and in such amount as is determined by the Secretary of the Treasury to be sufficient to pay the principal and interest on the outstanding debt obligations according to their terms. To the extent that the Association cannot provide qualifying assets in the amount required, the Holding Company shall be required to transfer such assets in an amount necessary to prevent any deficiency.

504. The House bill, but not the Senate amendment, requires the trust to transfer any remaining assets to either the Holding Company or its subsidiaries as directed by the Holding Company.

505. The House bill, but not the Senate amendment, requires that after funding the trust and prior to dissolution, the Association must take whatever actions are necessary to discharge all other obligations of the Association, including the repurchase or redemption of the Association's preferred stock. Any such obligations that cannot be fully satisfied shall become liabilities of the Holding Company as of the date of dissolution.

506. The House bill, but not the Senate amendment, requires that to the extent that any assets remain in the Association
following the foregoing procedures, such assets shall be transferred to the Holding Company.

507. The House bill, but not the Senate amendment, specifies that the number and composition of the Board of Directors of the Holding Company shall be as set forth in the Holding Company's charter or bylaws and as permissible under the laws of the jurisdiction of its incorporation.

508. The House bill, but not the Senate amendment, specifically prohibits the use of the name "Student Loan Marketing Association" and allows the use of "Sallie Mae" to the extent permitted by the applicable State or DC law.

509. The House bill, but not the Senate amendment, specifically permits the Association to assign to the Holding Company or any of its other subsidiaries the name "Sallie Mae," to be used as a trademark or service mark. The bill includes a fee of $5 million in 1996 for the right to assign the name.

510. The House bill, but not the Senate amendment, requires certain disclosures to be made during the period commencing after the reorganization and ending three years after the dissolution of the Association.

511. The House bill, but not the Senate amendment, makes clear that, except as explicitly provided, the section is not intended to limit the authority of the Association to act as a federally
chartered GSE or the authority of the Holding Company to take any actions that are lawful for a State-chartered corporation.

512. The House bill, but not the Senate amendment, grants authority to the Attorney General, upon request of the Secretary of Education or the Secretary of the Treasury, to enforce the provisions of new Section 440, by action brought in the United States District Court for the District of Columbia.

513. The House bill, but not the Senate amendment, sets a deadline of 18 months after the effective date of the section for the occurrence of the reorganization pursuant to which Sallie Mae's outstanding common stock will be converted to common stock of the Holding Company. If the reorganization has not taken place by 18 months after the effective date of section 440, this subsection provides that the section shall be of no further force and effect.

514. The House bill, but not the Senate amendment, sets forth the defined terms used throughout section 440.

515. The House bill, but not the Senate amendment, sets forth technical amendments to the Higher Education Act.
516. The House bill, but not the Senate amendment, permits the
Holding Company and any of its subsidiaries to be eligible
lenders under the Higher Education Act for secondary market
purposes.

517. The House bill, but not the Senate amendment, supplements
existing safety and soundness requirements applicable to the
Association by amending Section 439(r) of the Higher Education
Act to authorize the Attorney General, upon request of the
Secretary of Education or the Secretary of the Treasury to
enforce such requirements in an action before the United States
District Court for the District of Columbia.

518. The House bill, but not the Senate amendment, amends the
safety and soundness requirements set forth in Section 439(r).
The subsection supplements the reports provided by the
Association in support of its safety and soundness requirements
by requiring the Association to provide to the Secretary of the
Treasury, within 45 days of the end of each calendar quarter,
financial statements and quarterly reports setting forth the
calculation of the Association's capital ratio. The subsection
also amends the safety and soundness provisions relating to the
Association's capital ratio by providing new capital requirements
applicable to the Association after January 1, 2000, if the
Association's shareholders have approved the reorganization. At
such time, the Association will be required to maintain a capital
ratio of 2.25 percent for any quarter. If the Association fails
to maintain such ratio, the Secretary of the Treasury may take
certain specified actions to limit increases in the Association's
liabilities, restrict growth in the Association's assets (other
than student loan purchases and warehousing advances), restrict
capital distributions by the Association, require that the
Association issue new capital sufficient to restore the capital
ratio to the required 2.25 percent, and limit certain increases
in the executive compensation paid by the Association. However,
if the Association's capital ratio for any quarter falls below
2.25 percent, but is equal to or in excess of 2 percent, the
Secretary must defer taking such actions until the next quarter
and then may proceed with such actions only if the capital ratio
remains below 2.25 percent. Further, the Association is deemed
to be in compliance with its capital ratio requirements if it is rated by two nationally recognized statistical rating organizations, without regard to its status as a federally chartered corporation, in one of the two highest full rating categories.

519. The House bill, but not the Senate amendment, provides that upon the dissolution of the Association and the creation of the trust pursuant to new section 440(d), both the Association's Federal charter and section 439, shall be repealed.
