**LIBRARY IMPACT STATEMENT
LIBRARIAN'S ASSESSMENT**

Course: MBA 562 *Global Supply Chain Management*

Department, College:
College of Business Administration

Faculty Member:
Professor Douglas Hales

Date returned to Faculty: 21 January 2009

Librarian Completing Assessment: Andrée J. Rathemacher

The Library Impact Statement for *Global Supply Chain Management* indicates that students will be involved in research that requires the use of the library, specifically for “literature review and data collection.” It further states that “No resources will need to be ordered.” Further, the syllabus reveals that assignments will be based on case studies and required texts.

Based on the information provided, I concur that the University Library can meet the needs of *Global Supply Chain Management* with no additional resources. In my role as the liaison and subject selector for the College of Business Administration, I support the addition of this course without reservation.

Andrée J. Rathemacher
Associate Professor
Library Liaison / Subject Selector for the College of Business Administration
