              COLLECTION DEVELOPMENT UPDATE
                        #5
                  16 July 1992

Contents:  1. Program Review Schedule.
           2. Program Review Outline.

1. Program Review Schedule.

The University's Program Review Committee will be looking
at the following URI programs during the 1992-1993
academic year:
     College of Business (all departments and programs)
     College of Pharmacy (all departments and programs)

     Civil and Environmental Engineering
     Communicative Disorders
     Mechanical Engineering
     Microbiology
     Speech Communications

The College of Nursing is also preparing for an
accreditation review.

The Library will conduct a review for each of these areas
during this upcoming year. Gordon Stein and John
Etchingham recently compiled accreditation reports for the
Colleges of Pharmacy and Business respectively, so that
these reports only need a modest amount of repackaging for
the Program Review reports.

The Subject Selectors involved with the upcoming Program
Reviews will be receiving copies of the reports written
this past year to assist them in formulating new reports.

On the pages following you will find the Program Review
Outline procedures developed this year to help us to
standardize information and to assist us in gathering,
evaluating, and presenting information.

Subject Selectors will be asked to provide an outline of
their reports by Sept. 15, 1992.

2. Program Review Outline.

   See Procedures on the pages that follow.
