GENERAL INFORMATION

The Museum Program in the National Endowment for the Arts offers a number of programs designed to:

1. assist American museums in meeting the increased demands for their services by support of special exhibitions, of installation of the permanent collection (or its parts), of catalogues or cataloguing and in making the museum more accessible to its public;

2. assist in the training and preparation of the professional staff needed by museums to operate most efficiently and to serve in the best manner possible the needs of their public through support of training in museums and universities and through support of short leave programs for museum professionals;

3. assist museums in preserving the collections entrusted to their care through support of the installation of climate control, burglary and fire systems, through the training of conservators and through programs of aid in conserving individual objects; and

4. support museums and artists through purchase awards to museums for the acquisition of works of art by living American artists.

The Endowment will consider proposals from museums or organizations serving museums for specific projects which do not fit into any one or a combination of the programs listed.

Applications will not be accepted for operating expenses, construction or the funding of new museums. All such applications will be returned.
GENERAL INFORMATION

Bicentennial Projects

The Endowment recognizes that the arts will play an important role in the next few years in the celebration of our country's Bicentennial. The Endowment welcomes this involvement on the part of artists and cultural organizations. The Endowment has an active interest in participating in these efforts, within funds available to it, and insofar as they are directed to professional creation and presentation of new works, improvement of artistic standards, preservation of our cultural heritage, and increasing the availability of the arts for all Americans. If funds under these guidelines are sought for projects deemed by the applicant to be related to the Bicentennial, a brief description of this relationship should be made in the application.

Applicants for Bicentennial projects should observe the deadlines listed for the appropriate programs, e.g., Aid to Special Exhibitions, Renovation (Climate Control, Security, Storage), Conservation, Wider Availability of Museums, Catalogue, etc.

Eligibility

1. By statute, the Endowment is limited to making grants to organizations only if no part of their net earnings inures to the benefit of a private stockholder or an individual and provided donations to such organizations are allowable as charitable contributions under Section 170 (c) of the Internal Revenue Code of 1954, as amended. Individuals excepted, ALL APPLICANTS ARE REQUIRED TO SUBMIT A COPY OF THEIR INTERNAL REVENUE SERVICE TAX EXEMPTION DETERMINATION LETTER WITH EACH APPLICATION.

2. Museums, organizations serving museums, organizations providing museum functions, and currently employed museum professionals are eligible to apply. Aid for other organizations may be available in the Visual Arts or Expansion Arts Programs of the Endowment.

3. In general, the Endowment accepts the definition of museums developed by the American Association of Museums: "...a non-profit institution essentially educational or esthetic in purpose with professional staff, which owns and utilizes tangible objects, cares for them, and exhibits them to the public in some regular schedule." However, accreditation by the American Association of Museums is not a prerequisite for eligibility.

4. Although there are no restrictions on the number of applications submitted by each museum, the limited funds available to the Endowment make it unlikely that more than one project can receive support under any one category or sub-category.
5. In general, to be eligible for consideration, projects should be of national or regional impact and should have aesthetic and cultural significance.

Method of Funding

1. Program Funds Method. Generally, grants to museums will be made on at least a dollar-for-dollar matching basis. Applicants requesting assistance from Program Funds must present evidence in the proper space (Section X) on the application (Project Grant Application/NEA-3 Rev.) that at least one-half of the total cost of the project will be provided by the applicant. Anticipated sources of matching must be identified. Budgeted funds, as well as newly raised funds, may be used for matching in all programs except Museum Purchase Plan. Applicants are urged to verify the terms for matching in the program descriptions which follow.

Example:

Applicant requests from NEA $10,000
Applicant lists match of 10,000
Total project budget reflects at least $20,000

2. Treasury Fund Method. When the National Endowment for the Arts was created, Congress included a unique provision in its enabling legislation. This provision allows the Endowment to work in partnership with private and other non-Federal sources of funding for the arts. Designed to encourage and stimulate continued private funding for the arts, the Treasury Fund allows non-Federal contributors to join the Endowment in the grant-making process.
GENERAL INFORMATION

The Endowment encourages use of the Treasury Fund method as an especially effective way of combining Federal and private support, and as an encouragement to all potential donors, particularly those representing new or substantially increased sources of funds.

Treasury Fund grants are project grants applied for and approved in the same manner and for the same purposes as regular grants.

Under the Treasury Fund method, when a donation is received, it frees an equal amount from the Treasury Fund, and the doubled amount is then made available to the grantee to match. Thus for every $1.00 given by private sources under this program, another $1.00 is released from the Treasury. The grantee then matches this $2.00 with an additional $2.00, since almost all Endowment grants are for only half the total budget of an approved project. Please see the enclosed brochure for further information.

Special Instructions for Completing Applications

1. All requests must be submitted in triplicate according to instruction of the Endowment’s official application form (Project Grant Application/NEA-3 Rev. or Individual Grant Application/NEA-2 Rev.). Please follow closely the instruction sheet attached to your application and supply all information requested. Use the check list at the end of the application form to be certain that you have supplied all the information necessary for prompt processing and consideration of your applications. Failure to do so will result in unavoidable delays that may adversely affect consideration of your proposal.
2. Each request must be on a separate form. Multiple requests on one form will be returned.

3. Applications must be submitted by the institution or association named in the IRS letter of determination of tax-exemption.

4. Period of Support Requested/Grant Period (Sec. III):

Period of Support Requested is the span of time necessary to plan, execute and close out the proposed project. Generally, the Endowment limits its financial participation in any project to no more than 12 months. However, exhibition, catalogue, museum training, conservation and/or renovation projects that exceed 12 months will be considered. Applicants are urged to verify the terms for the grant period in the program descriptions that follow.

5. Project Description (Sec. IV):

The Project Description should be brief but specific. Spell out concrete details. All essential elements of the proposal must be included in a concise project summary in the space provided on the application. If applicants wish to supply additional information, they should submit no more than five pages (8½" x 11") with the application. Please also complete the Supplementary Information Sheets (if appropriate) which request special information to assist the Endowment in its assessment of the project.
GENERAL INFORMATION

6. Budget (Secs. VI and IX):

Budget estimates should cover the total project costs. Provide a breakdown on salaries, travel, and all other categories in the budget, including entries under Other. Travel items on the budget should be substantiated with a statement of the official policy of the institution and the specific nature of the travel. Indirect Costs (Secs. VI B. and IX B.) are those costs (general and administrative) which must be apportioned to each project of the applicant organization. The Endowment does not advocate a single method of apportionment. The Endowment's sole criterion is that the proposed project carry no more or less than its fair share of those indirect costs not set out as direct costs in some other section of the application. If you use indirect costs in projecting your budget, do not assume that automatic recognition will be given to the figure indicated. The amount of indirect costs must be backed up with an explanation of the method used to compute it and, where possible, reference amounts that can be supported by the prior year's financial statements which should accompany the application.

7. Total Amount Requested From NEA (Sec. VII):

Maximum amounts listed in the program description are approximate. Applications should show actual expenses and an appropriate request (no more than 50% of total costs). Please be sure to complete this section. Applications will be returned if this section is not completed.
8. Contributions, Grants and Revenues (Sec. X):

All applicants must complete this section of the application. The matching funds plus the amount requested from the National Endowment for the Arts must equal the total project costs. The Endowment does not require that the applicant have in hand at the time of application those matching funds listed under Contributions, Grants and Revenues. However, the applicant is asked to list the possible sources and amounts of such anticipated funds.

9. Certification (Sec. XII):

The application must be signed by an official of the applicant organization with authority to legally obligate applicant. In addition, please be sure to type name, title and telephone number of the authorizing official(s), project director and payee.

10. Applications must be postmarked no later than the deadline date for the program under which you are applying. Applications (and Supplementary Information Sheets, if appropriate) should be returned to the Grants Office, National Endowment for the Arts, Washington, D.C. 20506. Additional information and application forms may be obtained from the Museum Program at the above address. Telephone: (202) 382-5927.

Application Review Procedure

The Endowment's Museum Program staff reviews applications and refers them to the Museum Advisory Panel and then to the National Council on the Arts. Upon recommendation of these bodies and action by the Chairman of the National Endowment for the Arts, the applicant will be
notified in writing by the Endowment. Details of the grant award procedure will be explained in the letter of notification.

This program is designed to assist American museums in preserving collections of aesthetic and cultural significance. The program seeks to encourage renovation of facilities for climate control, security and storage in existing structures. Funds will not be available for new construction or for renovation of exhibition spaces except for climate control and/or security systems in these areas. Assistance is available within the following areas:

A. Survey

Priority will be given to requests for consultation services to assess renovation needs in the areas of climate control, security and storage and to suggest concrete measures to alleviate those needs. All grants for consultant's services will be awarded on at least a dollar-for-dollar matching basis.

B. Installation

In a few instances, where surveys have already been completed, including a projected plan of renovation and cost estimates, the Endowment will consider funding renovation projects during the current fiscal year. Please submit a copy of the survey.

NOTE: All such grants will be awarded on the basis of at least three dollars from non-Federal sources for every dollar of Endowment funds, i.e. the National Endowment for the Arts will be providing no more than 25% of the total project costs, and in most cases, much less. Many grants will be made through
RENOVATION (CLIMATE CONTROL, SECURITY, STORAGE)

the Treasury Fund Method. Applicants are encouraged to state their ability to use this, whenever possible, in the application. Please see pages 4 - 5 and the enclosed brochure.

Deadline:

Applications for this program must be postmarked no later than October 1, 1973.

Grant Period and Notification:

Projects should not be scheduled to begin earlier than April, 1974. The grant period (installation projects only) may exceed 12 months. Notices of approval or rejection will not be sent earlier than April, 1974.
This program is directed toward encouraging full community participation in the activities of museums. Although the program is broadly conceived, and includes the means of taking the museum to its audience or of bringing the audience to the museum or programs to heighten awareness in the audience, each proposal whether from a single museum or a cooperating group of museums must clearly indicate in what way or by what means the museum is to be made more widely available to its public. Proposals containing provisions for long-range continuity and effective evaluation will be given special consideration. The program does not support the creation of a new museum, operating expenses, acquisition or construction.

Deadline:

Applications for this program must be postmarked no later than October 1, 1973.

Grant Period and Notification:

Projects should not be scheduled to begin earlier than April, 1974. Notices of approval or rejection will not be sent before April, 1974.

This program provides matching grants of $10,000 or $5,000 to museums for the purchase of works by living American artists. The objectives of the program are to encourage museums to add to their collections of contemporary American art, to create and expand public response to works by living artists through display of their works, and to provide direct financial assistance for artists.

The enabling legislation of the National Endowment for the Arts states "The term 'the arts' includes, but is not limited to ...painting, sculpture, photography, graphic and craft arts, industrial design, costume and fashion design...."

The terms of the grant will be as follows:

1. The grant and matching funds must be used for the direct costs of purchasing two or more works by living American artists. Insurance, crating, shipping, installation, salaries and travel costs are not to be included.

2. Museums may apply for a $10,000 grant or a $5,000 grant. The funds must be matched on a dollar-for-dollar basis from new money raised during the grant period specifically for this purpose. Matching funds must not come from already budgeted funds and must be from non-Federal sources.
