Also testifying at the hearing, chaired by Arts Caucus Executive Board Member Cardiss Collins (D-Ill.), was George Ware, Executive Director for the Black Music Association. Mr. Ware stressed the "arbitrary methods" used by MTV and radio in excluding minority artists and urged Congress to examine the problem more fully. Joining Rep. Collins on the panel were Arts Caucus Members John Conyers, Jr. (D-Mich.), Walter Fauntroy (D.C.), and Katie Hall (D-Ind.), as well as Executive Board Member William Gray III (D-Pa.), who initiated the hearing.

In an attempt to address the various issues presented by the witnesses, Rep. Collins had introduced H.R. 1155 and H.R. 2331 -- bills which help provide greater participation of minorities in telecommunications. H.R. 1155 amends the Communications Act of 1934 to provide for greater diversity of ownership and control of domestic and international telecommunications by requiring implementation of equal opportunity employment programs. The second bill amends the Tax Code to increase the investment tax credit for the purchase of used telecommunications property. Hearings on H.R. 1155 by the House Telecommunications Subcommittee were held in June and September 1983, and the bill was referred to the Ways and Means Committee. No hearings were held on H.R. 2331, which is also pending in the same Committee.
