Contents: Subject Coded List of Serials (Faxon); FY92 Monographic Expenditures compared to B & T overall activity.

Serials Expenditures by Subject Code:

The latest listing done by Faxon was recently received. While there are still some obvious corrections to be made, the overall glimpse provided by this report is the best that we have had to date. The summary sheet is attached. The actual listing of titles within each subject code will be distributed to the subject selector responsible for that code. The group codes listings (ex. BIO, HLT, COE) will also be distributed to those with responsibility within those subject areas. I will retain a complete copy in my office for general use. You may distribute copies of your lists as you find the need. I would welcome additional corrections and comments.

Baker & Taylor Approval Plan Stats for FY92:

I have annotated the B & T listing of FY92 activity with the corresponding URI activity during that same period. This will give you some idea of the percentage of the current literature acquired by the Library.
