LIBRARY IMPACT STATEMENT LIBRARIANS' ASSESSMENT

Course: NUR 509 Advanced Assessment for Acute Care NP Practice

Department, College: Nursing

Faculty Member: Denise Coppa

Date returned to Faculty: 3 March 2011

Librarian Completing Assessment: Robin B. Devin

Assessment of:

- **the suitability of existing resources;**
- **the new resources required to support the program;**
- **the information skills education required by the students;
and**
- **the funds needed for library materials and services.**

1. Summary of existing library holdings in relevant subject categories, including supporting collections from HELIN. Amount of money now allocated in the program area.

The Library's collection already has resources to support the Nurse Practitioner program. This course is an additional course required for the Acute Care track within this program. The resources required for that track have already been outlined in earlier course proposals.

2. Does URI have the essential journals as noted in the Faculty Questionnaire?

The faculty have not noted any essential journals.

3. What new resources are required to support the program (including media, computing, or other nonprint materials)?

Since this course does not require any library research, no new resources should be required.

4. What information mastery sessions will be required for the students?

Since no library research is required for this course, no information mastery sessions should be required.

5. What is the approximate cost to acquire the materials necessary? Which of these will be continuing costs?

No new costs should be required.
