STONINGTON RAILROAD.—The destitute situation of the town of Stonington is but too well known. The most important feature in the town is the Stonington Union School, which is supported by a large number of the citizens. The school is conducted by the Rev. Mr. Johnson, and is one of the most successful in the state. The principal of the school is Mr. J. H. May, who has been a teacher for many years. The school is supported by the town, and is well attended by the children of the town. The school is located in the town of Stonington, and is well adapted to the wants of the people.

BENEDICT is to have a baby show at Providence, is to be held on Monday, in accordance with the request of the town of Slocum.

Forty-three, premiums, are offered for the best exhibit of apples.

They had a fair turn of some eight hours duration, in Boston, on Tuesday.

TheOnsuites of Warren have prepared the potatoes for the block of granite, minutely inscribed, for the Washington Monument.

We were shown a beautiful piece of porcelain, last week, made by "J. O." of The Town, for the ladies of the town.

The workshipmen were unceasing, and the pottery—being-made was not a little sought after, and to be seen was the only way to get a glimpse of the town. The clay was a fine black, Cinclonius, made by Mr. S. H.boom, &c., bought at a high price, than which we have none better in the town.

The Stonington Railroad Disaster.—The Railroad Commissioners, who are now in committee, have received a report of the disaster upon the Stonington Railroad, and have prepared a statute in the form of a bill, which has been passed by the town and sent to the legislature. The report is full of evidence of the negligence and carelessness of the company, and it is expected that the bill will be passed by the legislature.

One of the first "no" was not prepared for the railroad to go into the town, as the tuition in the town is too high, and that no one was prepared to go to the town, as there is no road between the town and the railroad. The railroad company is now paying the expense of the railroad, and the town is paying the expense of the schools.

Mr. Ruggles Bagley has purchased the property of Mr. G. B. Bagley, of the Mississippi Territory, which is situated on the Mississippi River, and is near the town of Helena. The property is bounded on the north by the Mississippi River, on the east by the town of Helena, and on the south and west by the town of Helena. The property is about 120 acres in extent, and is well adapted for agricultural purposes.

The greatest business in An- 

na is William Price, of Quebec. He 

has the bulk of the hall business, is a 

the most extensive dealer in the 

business, and is running near that 

place, at 67 King, and at the Sigourney 

Hall, Quebec. He is said to have 

some millions of feet from the Onta- 

ario. It is said he has hundreds of 

years, employment for from 3000: 1000 

sold at an annual rate of 

sold annually, with lumber to 

European markets.

Price is entitled to the credit of 

the greatest business in Quebec, 

for the manufacture of boats and shoes, 

for the cutting and selling of wood, and 

for the best and most beautiful timber. A 

furniture with this establishment, will 

shortly be in operation in York, and if suc- 

cessful we shall have boats and shoes 

cheap and plenty as wooden blocks. 

We hope they will be as well 

New Portland.
