Speak out for America's Libraries

Libraries Change Lives

Believe America's libraries play a vital role in empowering people of all ages to learn and grow and to exercise their right to know in a democratic society. I believe our nation's libraries must be fully supported in the Information Age.

Help celebrate America's Libraries. Tell us in 100 words or less how the library and/or librarian helped to change your life or made a difference for you or someone you know. Your "success story" will be used to support the case for library funding with legislators and policymakers at the local, state and national levels and to tell others how the library can help.

Who knows? It could change someone's life.

Your library "success story"/comments (please type or print):

At age 77 I was introduced to the computer housed at my public library. It belongs to the area community college. Word processing became a useful tool and an addiction. I love it!

My library is a constant source of good reading and information. I've been using it for over 70 years. I like to browse in the biographical section, looking up authors and running across unknown ones. I check the card catalogue and lo! there is a new source of good reading.

My library is fun, friendly, helpful and indispensable. It is my "home from home." Long live the library!

(Written on the word processor, of course!)
