Use General Summary section:
"Successful Requests for Pages" and
"Distinct Hosts Served"

FOR URI.EDU

Source: http://www.uri.edu/webstats/

Use General Summary section:
"Successful Requests for Pages" and
"Distinct Hosts Served"

Includes all files within the directory (pages).

Successful request for pages (visits) count Web pages. If a user goes to a page with 5 graphics, it counts as 1 visit or 6 requests (graphics + text) depending on your point of view. It is usually more meaningful to consconsider page counts (visits) rather than requests unless you are interested in server load or all file types transmitted.

Distinct hosts served refers to the number of different computers with unique IP addresses that have accessed the site.

NOTE: "Visits" is the number that ACRL has requested in the past.
