B. Activities of the Executive Committee

Vice Chairperson Leonard announced that the Minutes of Executive Committee meetings #5 - #8 were available on the Faculty Senate website. She asked if there were any questions. There were none.

C. Recommendations of the Executive Committee

1. Vice Chairperson Leonard called on Senate Chairperson Conley to present the recommendations of the Executive Committee regarding the restructuring of the standing committees. Chairperson Conley explained that the Senate had been presented on September 14 and September 21 with By-Laws language proposing changes to the structure and descriptions of the standing committees of the Senate. The Chair asked for a motion to approve replacing existing By-Laws of the Faculty Senate 4.20 – 4.88 with new sections 4.20 – 4.70. The motion was made and seconded. Discussion followed. Senator Roberts, a member of the Council for Research commenting on the proposed Committee for Research
and Creative Activities, expressed concern that 6 committee members were too few in number to accomplish the work of the committee especially regarding the annual grant proposal review that occurred every spring semester. Vice Chairperson Leonard suggested that subcommittees, similar to those proposed to be part of the Curriculum and Standards Committee, could be added to the committee structure. Senator Roberts moved that the Faculty Senate Executive Committee consider language that would include additional members to review proposals through the creation of subcommittees. The motion was seconded and approved. Professor Wenisch, Chairperson of the Constitution, By-Laws, and University Manual Committee commented that adding more members to a committee needed to be specified in the description of that committee. Chairperson Conley asked for a motion. A motion to increase the membership of the Committee for Research and Creative Activities was made and seconded. Discussion followed. Committee effectiveness as a function of committee size, and discipline-specific representation were debated. The question was called; the motion was approved. The original motion to approve replacing existing By-Laws of the Faculty Senate 4.20 – 4.88 with new sections 4.20 – 4.70 was sent back to the Executive Committee to be returned with amendments as directed.

2. Chairperson Conley asked for a motion to approve changes to By-Laws of the Faculty Senate 4.13 – 4.16. The motion was made and seconded. Discussion followed. Chairperson Conley explained that the motion would be voted on at the next meeting because, according to By-Laws 12.1, an amendment to the By-Laws may not be voted upon at the meeting at which it is first moved.

3. Chairperson Conley re-introduced the three models for populating Senate committees that had been presented and discussed at the September 21 meeting. He read aloud the description and terms of the “hybrid” model in which half of the committee membership would be derived from campus-wide elections and half would be appointed by the Faculty Senate Executive Committee. Senator Cooper moved approval of directing the Constitution, By-Laws, and University Manual Committee to revise appropriate sections of the Constitution, By-Laws, and University Manual to adopt the hybrid model. Senator Harlow seconded the motion. Discussion followed. Concern was expressed for ensuring a balance of college representatives in the committees. A motion was made and seconded to amend the language describing the hybrid model to limit the committee representatives to no more than two members from a single college. Discussion followed. Senator Ohley suggested giving consideration to the model in which membership was derived entirely from the body of the Faculty Senate, a body whose membership reflects college representation. Discussion continued. Senator Derbyshire moved to amend the amendment by adding “ideally” to the description: “limit the committee representatives to ideally no more than two members from a single college.” The amendment to the amendment was seconded. The question was called; the motion failed. Chairperson Conley returned to the motion to amend the hybrid model to limit the committee representatives to no more than two members from a single college. The question was called; the motion was approved. Discussion continued. Senators debated the differences between the hybrid model and the Faculty Senator model. Chairperson Conley returned to the main
motion as amended, that the Constitution, By-Laws, and University Manual Committee be directed to revise appropriate sections of the Constitution, By-Laws, and University Manual to adopt the hybrid model as amended. The question was called. The Chair asked for a show of hands. The motion failed, 13 in favor, 18 opposed.

A motion was made and seconded to direct the Constitution, By-Laws, and University Manual Committee to revise appropriate sections of the Constitution, By-Laws, and University Manual to adopt the self-(Senate) contained model. Discussion followed. Senator Cornillon proposed that the 3-year committee term be allowed to exceed the 3-year Senate term, that new appointments of senators to Senate committees be permitted in any of the 3 years of a senator’s term. He moved that the language of the model be amended such that nominations for committee membership be drawn from within the membership of the Faculty Senate. The motion was seconded. Discussion followed. The question to amend the motion was called; the motion failed. Chairperson Conley returned to the main motion, to direct the Constitution, By-Laws, and University Manual Committee to revise appropriate sections of the Constitution, By-Laws, and University Manual to adopt the self-(Senate) contained model. The motion was approved (by voice vote).
