I read with delight the subject of the poem. I am sure it will be of great interest to you. I have just finished a poem of my own, and I am almost sure that it will be published. I hope it will be as good as your poem. Mrs. Smith, I admire your work very much. I am looking forward to reading your new poem soon. Thank you for sharing it with me. 

Yours sincerely,

[Your Name]

Original Tale

A Tale for New Years.

BY MARGARET B.

"The snow comes early and stays, my friends."

Come to take its tale.

It had been snowing all the day, so in the late afternoon the sky was a dark and leaden gray, and as the last light of day settled, the world became a dim outline of bare trees and fields and roofs and fences. The wind blew the snow along the streets, and the snowflakes clung to the branches, making a soft, whispering sound as they fell. It was a cold, quiet evening, and the night was dark and lonely.

The people in the village had been busy all day, preparing for the coming of the new year. They had been buying groceries and gifts for their families and friends, and making plans for the festivities of the day. Now that the snow had fallen, they were ready to settle in for the night, to enjoy the warmth of their homes and the comfort of their loved ones.

The villagers sat around the fireplace, drinking hot cocoa and exchanging stories and jokes. They talked about the old year and looked forward to the new one. The children played games and sang carols, and the adults talked about the events of the year that had passed and the hopes and dreams they had for the year to come.

As the night wore on, the snow continued to fall, making the world even more peaceful and serene. The villagers fell asleep, dreaming of the new year and all the joy and happiness it promised.

SPITTING.

BY M. A. CARLYLE S.

Will the time come when the option, that disgusting reminder that people are still in the pest, isn't needed at all? Will people ever be tolerant and considerate?

The author, who has been planning to write this essay for some time, was incensed by the news that the United States had once again been declared the "least tolerant" country in the world. "We shouldn't be the least tolerant country," he declared. "People should be able to live their lives without fear of judgment or persecution."

The essay, which was titled "Toward a More Tolerant Society," was intended to be a call to action, a plea for people to stand up against discrimination and oppression. The author believed that tolerance was essential for a healthy, functioning society, and that it was time for people to come together and work towards a more just and equitable future.

Unfortunately, the essay was never published. The author's original manuscript was lost in a fire that destroyed his home and all of his possessions. Despite this setback, the author was determined to see his ideas shared with the world. He published the essay online, hoping that it would reach a wide audience and inspire others to join him in the fight for a more tolerant society.

We hope that you will take the time to read this essay, and that it will inspire you to take action in your own community. Together, we can create a world where everyone is treated with respect and dignity, regardless of race, gender, sexual orientation, or any other characteristic.

End of essay.
