job
pls respond

26 Randall Street
Greenville, Rhode Island 02828
March 30, 1980

Senator Claiborne Pell
418 Federal Building
Providence, Rhode Island 02903

Dear Senator Pell,

It has been suggested by the Career Counseling Office at Rhode Island School of Design that I contact you for help in obtaining employment in Washington, D.C., starting this summer.

During college, I was a volunteer in "Action" and since college, I've taken supplementary courses in Oceanography, Astronomy, Photography and Video, not mentioned in the enclosed resumé. I have also filed standard Form 171.

I have done extensive freelance work in many fields of two-dimensional and three-dimensional design and have been steadily involved in education for the past four years.

Hopefully, you may be able to circulate my resumé among various art councils and agencies in Washington. Any help would be appreciated greatly.

In your capacity as a Senator, I know that you have always been extremely supportive of the arts and young people in the arts.

I feel that I could be effective in any capacity.

If there's any additional information that I can supply, please contact me immediately. I am most appreciative of your assistance. I do hope this will enable me to find employment in Washington. I look forward to hearing from you. Again, thank - you

Sincerely Yours,
Rory F. Marcaccio
