Social sci., interdisciplin.	60	27	7	4

While the University Library has undergone a series of cuts in its journal subscriptions during the past ten years, the journal collection in support of the GSLIS curriculum has remained steady. We have all of the major English language library science journals, and many of the

minor ones. This collection is supplemented by a full array of US and state government publications, professional and scientific journals in related subject areas, and growing access to electronic texts through, at present, Bell & Howell. We spend approximately \$250,000 p.a. to supply online and electronic access to many standard indexing and abstracting media as well.
