The Library Impact Statement for MBA 558 *Fixed Income Securities Analysis* indicates that students will be conducting research that requires their use of the Thomson I database. This is a database subscribed to by the College of Business Administration with no involvement by the library. The Library Impact Statement lists no additional critical journals, monographs, or electronic resources that the library must have in order to support the course.

Based on this information and on an examination of the proposed syllabus, I conclude that the University Libraries can meet the needs of MBA 558 *Fixed Income Securities Analysis* no additional resources. In my role as Subject Selector for the College of Business Administration, I support the addition of this course without reservation.
