NISO Annual Members Meeting and Standards Update

Webinar
Because of the COVID-19 pandemic, our annual members meeting will look a bit different this year. We usually hold an in-person meeting at the ALA Annual Conference, but since that has been cancelled, we are inviting you to attend the annual meeting virtually instead. The NISO Annual Members Meeting and Standards Update will take place via Zoom on Friday, June 26, from 11am - 12.30pm EDT/4pm - 5.30pm BST. You will hear from our Executive Director, Todd Carpenter, and other NISO staff about important organizational issues, including our strategic planning process for 2020-2022, the completion of the NISO/NFAIS merger, the inaugural NISO Plus conference, our organizational finances, and our standards program plans for the coming year. The meeting is also a chance for you to share your own feedback about NISO and our work, and to ask us any questions you have about our organization and how we operate.

Following the Members Meeting portion of the session, Working Group members and NISO staff will provide updates on several NISO projects:

- **Content Platform Migrations** - Kim Steinle, Duke University Press
- **E-Book Metadata Working Group** - Ravit David, Scholars Portal, Alistair Morrison, Johns Hopkins
- **KBART** - Andrée Rathemacher, University of Rhode Island, Noah Levin, Independent
- **Open Discovery Initiative** - Rachel Kessler, ProQuest
- **Seamless Access** - Jason Griffey, NISO

**Post-Event Update:** We have added the answers to two questions received during the event, to the E-Book Metadata section below. If you asked a question during the event and do not see it on this page, please contact us. Thank you.

Manager of Library Applications
Johns Hopkins University, Sheridan Libraries

Question
Have you also considered ISSNs for book series?
Answer
We have a section in the draft where we discussed monographic series at length. Please read it and let us know if we need to include anything else that relates to ISSN, in the way you think is best to use it. BTW, BITS has a field for ISSN under <collection-meta> that is recommended for series.

Question
Can you give a brief overview of the validation and quality assurance recommendations within the standard, beyond just proper formatting of each element?
Answer
We don't make any recommendations regarding validation because that is handled by the individual standards. The quality assurance recommendations are disbursed throughout the recommended practice, and are based on consideration of the proper authority for the data element and the practical issues affecting accurate transmission of the authoritative information, and the replacement of preliminary titles etc. with the final metadata from the publisher. Most of the quality assurance discussion occurs in the General Recommendations for each element.

NISO
Additional Information

- If you have not received your Login Instruction e-mail by 10 a.m. (ET) on the day before this virtual, please contact the NISO office at nisohq@niso.org for immediate assistance.

- If you are registering someone else from your organization, either use that person's e-mail address when registering or contact nisohq@niso.org to provide alternate contact information.

- Conference presentation slides and Q&A will be posted to this event webpage following the live conference.

- Registrants will receive an e-mail message containing access information to the archived conference recording within 48 hours after the event. This recording access is only to be used by the registrant's organization.

For Online Events

- You will need a computer for the presentation and Q&A.

- Audio is available through the computer (broadcast) and by telephone. We recommend you have a set-up for telephone audio as back-up even if you plan to use the broadcast.
audio as the voice over Internet isn't always 100% reliable.

Please check your system in advance to make sure it meets the Zoom platform requirements. It is your responsibility to ensure that your system is properly set up before each webinar begins.

Event Dates
June 26, 2020 11:00am – June 26, 2020 12:30pm

Registration
To register: RSVP Here. (Work Email Address Preferred)

Fees
This event is being provided as a public service at no cost to the NISO community and to the broader information community.

To allow us to estimate attendance and to ensure that you can receive the sign-on credentials directly via email, we ask those interested in attending to complete this RSVP form. Webinar attendance on the Zoom platform does require sign-on with an email address.

Location
NOTE: All NISO events operate under Eastern Standard Time.
