LIBRARY IMPACT STATEMENT (New Course Proposal)
LIBRARIAN'S ASSESSMENT

Subject selectors will complete this form as requested, assessing library materials and collections as detailed below. Send one copy of the assessment to the faculty member who requested it. Send one copy of the assessment to the Collection Management Officer.

Program: BIO498

Department, College: Biological Sciences

Faculty Member: Professors Alison Roberts & Linda Forrester

Date returned to Faculty: January 6, 2014

Librarian Completing Assessment: Michael A. Cerbo II

Collection Management Officer: Professor Joanna Burkhardt

This new 2 credit course is titled "Teaching Practicum in Biological Sciences" with 1.5 credits for the practicum and 0.5 for a workshop. The Professors expects the students to conduct no research, but rather assist graduate TA's in instruction. Students will gain practical teaching and laboratory instruction experience.

We are able to add whatever appropriate monographic needs might arise for the instructor. Our monographic holdings in biological sciences are good and any additional materials can be garnered through our library consortium (HELIN).

Access to journals in this field meets the needs of the course, since there is no research requirement!

Therefore, the librarian believes that the Library can support, bibliographically, the needs of the students to be able to acquire the most out of this course.

Michael A. Cerbo II,
Biological Sciences Bibliographer
