LIBRARY IMPACT STATEMENT (New Course Proposal)
LIBRARIAN'S ASSESSMENT

Subject selectors will complete this form as requested, assessing library materials and collections as detailed below. Send one copy of the assessment to the faculty member who requested it. Send one copy of the assessment to the Collection Management Officer.

Program: PLS 301

Department, College: Plant Sciences. CELS

Faculty Member: Professor W. Michael Sullivan

Date returned to Faculty: March 25, 2015

Librarian Completing Assessment: Michael A. Cerbo II

Collection Management Officer: Professor Joanna Burkhardt

This 1 credit seminar course is titled "Pesticide Applicator Training" and is a safety training class which will lead to the opportunity to take the Rhode Island licensing exam. The goal of this course is to give a competitive advantage in employment to our students.

We are able to add whatever appropriate monographic needs might arise for the instructor. Our monographic holdings in the environmental and plant sciences are good and any additional materials can be garnered through Interlibrary loan.

Access to journals in this field meets the needs of the course. Since the focus of this one credit is pesticide management and safety training specific to the exam for the RI license, the required materials from the library will be minimal.

Therefore, the librarian believes that the Library can support, bibliographically, the needs of the students to be able to acquire the most out of this course.

Michael A. Cerbo II,
Plant Science Bibliographer
