This online, one-credit course is part of the online MS in Dietetics program. This course does not require research, and most of the required readings are openly available online. The URI Libraries will provide access to the one required journal article. According to the Library Questionnaire, no supplementary library resources will be needed. The syllabus does state that students may contact the Info & Research Help Desk for assistance.

Based on the Libraries' New Course Proposal form and a review of the syllabus, in my role as subject selector, I conclude that the Libraries can fully support this course through existing resources.
