**LIBRARY IMPACT STATEMENT
LIBRARIAN'S ASSESSMENT**

Course: MBA 563 *Supply Chain Network Modeling and Optimization*

Department, College: College of Business Administration

Faculty Member: Prof. Koray Ozpolat

Date returned to Faculty: 23 February 2015

Librarian Completing Assessment: Prof. Andrée J. Rathemacher

The Library Impact Statement for MBA 563 *Supply Chain Network Modeling and Optimization* indicates that students will not be conducting research in the course. Further, the Library Impact Statement does not list any critical journals, monographs, or electronic resources that the library must have in order to support the course. It states, "This class uses a simulation and cases. There is no requirement for use of library resources." The syllabus confirms this statement.

Based on this information, I conclude that the University Libraries can meet the needs of MBA 563 *Supply Chain Network Modeling and Optimization* with no additional resources. In my role as Subject Selector for the College of Business Administration, I support the addition of this course without reservation.

Andrée J. Rathemacher
