The Library Impact Statement for BUS 410X *Lean Six Sigma Green Belt Practicum* indicates that students will not be conducting library research in the course. The response to the question of what critical journals, monographs, and electronic resources are required to support the course is: "This course requires no additional support."

A review of the syllabus confirms this.

Based on my review of the Library Impact Statement and the syllabus for BUS 410X, I conclude that the University Libraries can meet the needs of this course with no additional resources.

In my role as Subject Selector for the College of Business Administration, I support the addition of this course without reservation.
