Assessment of:

- Suitability of existing library resources;
- New library resources required to support the program;
- Information skills education required by the students; and
- Funds needed for library materials and services.

Please include:

- What library holdings already exist in relevant subject categories. How much money is now allocated in the subject area?

A search of "hospital administration" in the Library catalog yielded 654 related records, many of them current. Health Studies is a multidisciplinary area so funds are drawn from several allocations.

- Does URI have the essential journals as noted in the Faculty Questionnaire?

URI has access to HFM journal of Health Care Financial Management

Association online from 1987 forward.

The American Hospital Association materials required are freely available from the AHA website. The Advisory Board materials required are freely available from the Advisory Board website.

- What new resources are required to support the course (including media, electronic, or other non-print materials)?

One new book was requested and will be purchased.

- What information mastery sessions will be required for the students?

No information mastery sessions are required for students.

- What is the approximate cost to acquire the materials necessary? Which of these will be continuing costs?

The approximate cost to acquire the new book for this class is \$50. This is not a continuing cost.
