Assessment of:

- Suitability of existing library resources;
- New library resources required to support the program;
- Information skills education required by the students; and
- Funds needed for library materials and services.

Please include:

1. What library holdings already exist in relevant subject categories. How much money is now allocated in the subject area?

The library holds both historic and current materials in relevant subject categories. The allocation for the purchase of monographs for Engineering for 2021-22 is approximately \$10,000. The cost of journal and database subscription is not broken out by department or college.

2. Does URI have the essential journals as noted in the Faculty Questionnaire?

The library had online access to all of the essential journals as noted in the Faculty Questionnaire.

3. What new resources are required to support the course (including media, electronic, or other non-print materials)?

No new library resources are required for the support of this course.

4. What information mastery sessions will be required for the students?

No library information sessions are required for students in this course.

5. What is the approximate cost to acquire the materials necessary? Which of these will be continuing costs?

There are no new costs to the library for the support of this course.
