LIBRARY IMPACT STATEMENT (New Course Proposal)
LIBRARIAN'S ASSESSMENT

Subject selectors will complete this form as requested, assessing library materials and collections as detailed below. Send one copy of the assessment to the faculty member who requested it. Send one copy of the assessment to the Collection Management Officer.

Program: BES 510

Department, College: Natural Resources Science. CELS

Faculty Members: Professor Carol Thornber

Date returned to Faculty: April 6, 2021

Librarian Completing Assessment: Michael Cerbo II

Collection Management Officer: Professor Joanna Burkhardt

This graduate level course is titled "Research Grant Management" and requires little, if any, research. Per the syllabus, this course "...introduces strategies for identifying, applying to, and managing research grants. Topics include online grant platforms, federal requirements, and templates; satisfies URI's Responsible Conduct of Research (RCR) training."

We are able to add whatever appropriate monographic needs may arise for the instructors. Our monographic holdings in grant management and grant writing are good and any additional materials can be ordered through the Library or garnered using Inter-Library Loan (ILL).

Access to journals in this field meets the needs of the course. Since the professor will be using grant management software and other online tools, there will be little use of library resources.

Therefore, the librarian believes that the Library can support, bibliographically, the needs of the students to be able to acquire the most out of this course.

Michael Cerbo II,
Natural Resources Science Bibliographer
