Assessment of:

- Suitability of existing library resources;
- New library resources required to support the program;
- Information skills education required by the students; and
- Funds needed for library materials and services.

Please include:

1. What library holdings already exist in relevant subject categories? How much money is now allocated in the program subject area?

The library has both historic and current materials in relevant subject categories. The allocation for the purchase of monographs for Education for 2021-22 is approximately \$5,000. The cost of subscriptions for journals and databases is not broken out by department or college.

2. Does URI have the essential journals as noted in the Faculty Questionnaire?

Recently completed LISs for each of the four courses in this program indicate that there are no new library resources required for the support of this program.

3. What new resources are required to support the program (including media, electronic, or other non-print materials)?

No new library resources are required to support the program.

4. What information mastery sessions will be required for the students?

Library information mastery sessions are not required for the program.

5. What is the approximate cost to acquire the materials necessary? Which of these will be continuing costs?

There are no new costs to the library for the support of this program.
