Assessment of:

- Suitability of existing library resources;
- New library resources required to support the program;
- Information skills education required by the students; and
- Funds needed for library materials and services.

Please include:

1. What library holdings already exist in relevant subject categories. How much money is now allocated in the subject area?

The library has substantial holdings in relevant subject categories. While no funds for the purchase of monographs are specifically allocated for Health, plenty of funding is available in relevant subject categories for any needed purchases. The cost of journals and databases is not broken out by department or college.

2. Does URI have the essential journals as noted in the Faculty Questionnaire?

URI has online access to all of the journals noted in the Faculty Questionnaire. A copy of the recommended book has been ordered.

3. What new resources are required to support the course (including media, electronic, or other non-print materials)?

No new library resources are required for the support of this course.

4. What information mastery sessions will be required for the students?

No library information mastery sessions will be required for the students.

5. What is the approximate cost to acquire the materials necessary? Which of these will be continuing costs?

There are no new costs to the library for the support of this course.
