LIBRARY IMPACT STATEMENT (New Course Proposal)
LIBRARIAN'S ASSESSMENT

Subject selectors will complete this form as requested, assessing library materials and collections as detailed below. Send one copy of the assessment to the faculty member who requested it. Send one copy of the assessment to the Collection Management Officer.

Program: SAF 383

Department, College: Fisheries, Animal & Veterinary Science. CELS

Faculty Member: Professor Patrick Baur

Date returned to Faculty: December 9, 2020

Librarian Completing Assessment: Michael A. Cerbo II

Collection Management Officer: Professor Joanna Burkhardt

This new 3 credit, interdisciplinary course is titled "Food Justice" and there will be some research components for the students, including two projects that will utilize current resources in the field.

We are able to add whatever appropriate monographic needs might arise for the instructor. Our monographic holdings in food sciences, public policy and the social sciences are good and any additional materials can be garnered through Interlibrary loan.

Access to journals in this field meets the needs of the course. Our online indexes and abstracts in the sciences and public policy generally should more than meet the demands of this course. In particular, access to Academic Search Complete offers a general mix of valuable resources. Specific journals, such as *the Journal of Agriculture, Food Systems, and Community Development*, *Elementa: Science of the Anthropocene* and others are available from the Library.

Therefore, the librarian believes that the Library can support, bibliographically, the needs of the students to be able to acquire the most out of this course.

Michael A. Cerbo II,
Fisheries, Animal & Veterinary Science Bibliographer
