Assessment of:

- Suitability of existing library resources;
- New library resources required to support the program;
- Information skills education required by the students; and
- Funds needed for library materials and services.

Please include:

1. What library holdings already exist in relevant subject categories. How much money is now allocated in the subject area?
2. Does URI have the essential journals as noted in the Faculty Questionnaire?
3. What new resources are required to support the course (including media, electronic, or other non-print materials)?
4. What information mastery sessions will be required for the students?
5. What is the approximate cost to acquire the materials necessary? Which of these will be continuing costs?

This course will require students to use library resources to complete a literature review. All of the journals and the one book cited as critical are available at URI Libraries, most of which are available online. The library will subscribe to the journal, *Jazz Education in Research and Practice* beginning in 2021.

In addition to RILM, Music Index Online, and resources in URI Libraries catalog, databases in Education such as ERIC and Education Full Text can supplement the music database research.

Instruction in using these resources can be scheduled with a librarian.

URI Libraries has sufficient resources to support this course; no new resources are needed.
