- A. That the ROTC program continue at the University of Rhode Island with modifications, if and where necessary, in order to meet the standards of academic quality and freedom of expression currently applicable to all university academic programs; and that ROTC be modified wherever necessary in order to further improve its present courses of study in conjunction with the constant effort to enhance the quality of education available to students in all courses at the University.

- B. That in pursuit of this goal in ROTC courses, President Baum be requested to communicate with other land-grant colleges and universities and with the Department of Defense in order to review the ROTC program to determine whether ROTC still serves a useful purpose. If it does serve a useful purpose, ways should be sought to improve its effectiveness. If it does not serve a useful purpose, then new approaches to officer procurement should be sought.
