This 1 credit workshop course is titled “Workshop Readiness for Social Science Majors” and is open to all students with social science majors. Students will learn how to best market themselves for success in the workplace. The Professor has chosen mostly open access resources and these and other materials will be available via Brightspace.

We are able to add whatever appropriate monographic needs might arise for the instructor. Our monographic holdings in the social sciences are good and any additional materials can be garnered through Interlibrary loan.

Access to journals in this field meets the needs of the course. Since the focus of this one credit course is social science career marketing and beginner workplace skills, the required materials from the library will be minimal.

Therefore, the librarian believes that the Library can support, bibliographically, the needs of the students to be able to acquire the most out of this course.
