Political Rally at Dean's Hour

Republicans Win Straw
Vote; Democrats in
Second Place

Because of the fact that Tuesday, November 8, was election day, "Dean's Hour" last Monday was in the form of a rally with speakers for the Republican and Democratic sides. It was held under the direction of Miss Helen Holmes, who took charge of the meeting after Miss Peck had given a few announcements. Miss Holmes introduced Miss Barbara Masterson, the speaker for the Democratic party.

Miss Masterson emphatically declared to her audience, in opening, "Do not be bound by party lines. Vote according to your common sense and your calm judgment after hearing each party set forth its platform." She pointed out the fact that the Smoot-Hawley tariff was a grave mistake on the part of the Republicans. "The modern world is a unit," she said, "and no one nation can raise protective tariff walls against another without injuring itself more than the other country. The Republican party has set an uneconomic example; for the high tariff has resulted in retaliatory action abroad in the form of tariffs against the United States in more than forty countries, therefore destroying our foreign trade and robbing the farmer of his foreign markets. According to Miss Masterson, European countries can pay their war debts only in goods, but foreign goods are barred here by high duties. In continuing, she asserted, "The Democratic party advocates tariff for revenue only." Turning to the problem of unemployment, Miss Masterson explained that Roosevelt had appointed a committee for the stabilization of industry before the administration had taken any action. Miss Masterson stated in her closing remarks.

Essay Contest Open to Co-Eds

Seven Hundred Dollars in
Prizes Offered by Mrs.
Belmont

An announcement of interest to the co-eds was given Monday by Miss Peck. In short, Mrs. O. H. Belmont has offered prizes for the best essay submitted on The Equal Rights Amendment. The prizes are \$500 for first prize and \$200 for second, with a round trip to Washington for both winners. The essays must be from 2000 to 3000 words, and must be submitted before February 15. The rules for the contest are posted in Aggie.

Class Elections Held Wednesday

Preferential System of
Voting Installed by
Sachems

At assembly last Monday the Sachems installed the preferential election system for the election of class officers. This system does away with the clique voting which is popular with the open system of voting. Dr. Weldin, representing the Sachems, explained the system to the student body. Nominations were held at assembly and elections were held Wednesday at the Press Club. Booths were installed and ballots were used. It should be noted that the elections here at college come at the same time as the national elections.

Interfrat Bowling Progressing Fast

Sport Gains Popularity
With "Down-the-Line"
Week-Enders

A new week-end sport has risen among us. Anyone happening to be in Peace Dale on a Saturday night may find both interest and pleasure at Patsy's Bowling Alley, where the Rhode Island State College Inter-Fraternity Bowling League is now being held. A large number of fraternities are taking part in this tournament at the present time, and it is expected in the near future that almost every house will be represented.

A lineup of five-men teams of the various fraternities is listed below with the captain and the high scorer of each team.

Alpha Tau Gamma

1. M. Martynick, Capt., high score, 112.
2. M. Mazmenian.
3. William Garfield.
4. Anthony Steere.
5. Ike Turner.

Leonard House

1. A. Ferri, Capt., high score, 135.
2. John DiGati.
3. Kenneth Potter.
4. Girard Takvorian.
5. Victor Renzo.

Phi Beta Chi

1. Robert Bardsley, captain.
2. M. Almfeldt, high score, 115.
3. Walter Waterman.
4. Ralph Henshaw.
5. Howard Carlson.

Wells House

1. John Ford, captain.
2. William Hutler, high score, 144.
3. Amos Kent.
4. Professor Brown.
5. Joseph Padien.

Theta Chi

1. J. Fisher, Capt., high score, 112.
2. John Baldoni.
3. Everett Brown.
4. George Tyler.
5. E. Pecker.

Phi Mu Delta

1. H. Greaves, Capt., high score, 110.
2. Howard Gardner.
3. Bud Carrier.
4. George Luther.
5. Norman Middleton.

Alpha Epsilon Pi

1. M. Koppe, Capt., high score, 115.
2. B. Pinberg.
3. Harry Tietz.
4. M. Finberg.
5. Dave Levett.

No formal league matches have been played yet, although Leonard House, last Friday night, bowled against Phi Beta. Phi Beta won two strings, Leonard

PLEDGING

Rhode Island Alpha Chapter of Sigma Alpha Epsilon announces with pleasure the pledging of Stephen Carmody of the Class of 1934.

Rhody to Play Conn. Aggies Sat.

Game With Traditional
Rival to Conclude
1932 Season

Rhode Island will close its 1932 football season this Saturday when both Varsity and Freshman elevens will play their traditional rivals, Connecticut Aggies, at Storrs, Conn. The Frosh of both colleges will play their game preliminary to the big affair.

Since 1897 the two varsity teams have met twenty-five times, the Rams winning twelve to Connecticut's nine, while four of the games were tied. This year, neither of the two elevens have had a very bright season and this Saturday's contest will be anyone's game.

Except for Co-Captain Joe DeRita, who strained a ligament in his leg last week, the squad is in fine shape. Jimmy Hodgson will probably be back in the lineup after being on the injured list.

The three co-captains, Curt Colison, Nattie Capalbo and Joe DeRita, will play their last football game for Rhode Island next Saturday. For the past three years they have been members of Varsity teams and during this time they have been mainstays of Rhody elevens.

Rhody Runners Take Fourth Place

Rams Place Well Among
12 New England Col-
leges; Ramlets 7th

Running over a very muddy course the varsity harrriers placed fourth while the Frosh finished seventh in the New England Intercollegiate at Boston last Monday. New Hampshire won both the varsity and Freshman runs. In the upperclassmen's race the colleges finished in this order: New Hampshire, Bowdoin, Maine, Rhode Island, Bates, M. I. T., Mass. State, Northeastern, Springfield, U. of Maine, Tufts, and Wesleyan.

Captain Artie Arnold led his team over the course to take seventh place while Cotter, Morris, Sullivan and Timperly finished 14, 29, 31, and 48, respectively in the field of 250 runners.

Fairchild did well to place 6th among the Freshmen. Others to place were Wild, Hanley, Glenn and Henney.

Dances Popular on Eve of Election

Pledges Honored by Phi
Beta Chi, Alpha Tau
Gamma and Beta Phi

Dances were popular over the week-end. Phi Mu Delta sponsored a Homecoming Dance at Lippitt Hall Saturday night and Alpha Tau Gamma, Beta Phi and Phi Beta Chi held house dances Election Eve.

A large number of alumni and students attended the dance at Lippitt. Music was supplied by Al Rosen's Newport Society Club Orchestra. Captain and Mrs. Thomas Freeman and Captain and Mrs. U. W. Holley were the patrons and patronesses. Warren Tallman and his assistant, Stanley Smith, ably managed the affair. The hall was decorated with the banners of each fraternity on the campus.

Alpha Tau Gamma held its annual pledge dance Monday night. About 40 couples danced to the strains of Paul Sterling's Orchestra. The patrons and patronesses were Professor and Mrs. Joseph Ince, and Dr. and Mrs. F. C. Wooten. Outstanding among the numerous decorations were two large paddles which formed an arch over the entrance to the house. The committee in charge included: Edward Costa, chairman; Joseph Costanza; Richard Colwell, and Arthur Dawson.

Another pledge dance was held at Beta Phi on the same night. The affair, which was formal, was attended by 80 couples, and every one had a good time. Eddie Quinton's Orchestra supplied the music. Dr. and Mrs. John Barlow, Miss Hannah Alida Birch, and Mr. and Mrs. J. Richard Jones were the patrons and patronesses. George Spirik, 3rd, was the chairman of the committee in charge.

The third dance of the same night was a so-called Election Dance at Phi Beta Chi. The Blue Moon Orchestra ably performed for the 35 couples present. Professor and Mrs. C. Lester Coggins, and Professor and Mrs. Carroll Billmyer were the patrons and patronesses. The house was decorated appropriately for Election Day. Among the features of the evening was a straw vote. Unfortunately, no results would be divulged. The dance committee included Everett Morris, chairman, Theodore Froberg and Frederick Hindley.

It was discovered that with so many dances occurring all at once, one fair co-ed accepted invitations to all three and then became so confused that she broke all of them. Hire a secretary, Marion!

A contemporary observes that politics make strange bedfellows. But they soon get used to the same bunk.—London Punch.

Varsity Debating Tryouts Are Held

Women's and Men's Teams
Chosen; Masterson, Ger-
emia Captains

Last Friday in Lippitt Hall the annual tryouts for the varsity debating teams were held. Until this year the varsity teams have not been chosen before the second half. However, it was decided to get an early start this year in order that a full schedule might be carried through.

Those trying for the women's team were Barbara Masterson, Matilda Litwin, Helen Holmes, Ruth Nelen and Charlotte Waters. The Misses Litwin and Holmes talked on the subject "Capitalism Has Failed," both taking the negative side. The Misses Masterson, Nelen and Waters argued on the subject "The Allied War Debts Should Be Cancelled." The team, as chosen, consists of Helen Holmes, Matilda Litwin and Barbara Masterson, with Ruth Nelen as alternate. Miss Masterson was made captain.

Edward Geremia, Lloyd Cranday, Donald Williams, and Matthew Faerber tried out for the men's team. The first three argued the affirmative side of the subject, "The Allied War Debts Should Be Cancelled," while Mr. Faerber argued the negative side of the same question. Many varied and interesting points were brought out by the speakers. The men's team chosen consists of Messrs. Geremia, Williams and Crandall, with Faerber as alternate. Mr. Geremia is captain.

The judges were Miss Peck, Dr. Churchill, and Dr. Wooten. It is expected that several debates will be scheduled for the near future.

First House Dance at Beta Psi Alpha

Paul Sterling's Band Fur-
nishes Music for
Occasion

Beta Psi Alpha will hold its first dance tonight in its new house recently damaged by fire. This dance is given in honor of the pledges. The patrons and patronesses are Dr. and Mrs. Bressler, Dr. and Mrs. Douglas, Dr. and Mrs. Migliaccio and Mr. and Mrs. Farrarais.

The committee for the dance consists of T. J. Bellavia, chairman; M. DiMaio, decorations; A. Geladi, refreshments, and P. Piccerillo, music.

The music will be furnished by Paul Sterling's orchestra. The Hon. Mr. and Mrs. Roy Rawlings will be honored guests. The house has been completely renovated and artfully decorated for the occasion.

Professor Mitchell of Brown at Manse

Talks on "Jesus in an Age
of Science;" Large Num-
ber Present

Last Sunday night the Manse was the scene of one of the most interesting discussions in the history of the Fellowship, according to those members who have been present at most of the meetings.

Professor Mitchell from the Department of Physiology at Brown gave a very interesting talk on "Jesus, In an Age of Science." He introduced two main topics, which were the two things Jesus stood for. First, "Faith in God" and secondly, "Brotherhood of Man."

Professor Mitchell said, "We have a conception of Him as standing for new ethics. Jesus redis-

(Continued on Page 4)

LESSONS IN HISTORY, NO. 2

THE WAR WITH SPAIN

This war had some causes. The blowing up of the battleship Maine (no relation to the state) in Havana harbor caused a demand for war on the part of the American public. Representative Cannon's bill appropriating fifty million dollars to buy toothpicks for the starving Russians was vetoed, and the money appropriated to buy dogs for the navy dog-watches.

Part of our navy under Commander Dewey was in Hong Kong (Pa.) On the night of April 30, his six vessels moved into Vanilla harbor and completely destroyed the Spanish fleet parked there. (Dewey took Strawberry the next day.)

It was during this battle that one of the captured Spanish officers was seen walking back-

ward on the deck. When asked why, he replied that he was the Rear Admiral.

On a hurried trip the battleship Oregon was sent from the Pacific to the Atlantic by the way of Cape Horn. It arrived in Key West in 36 days. It was renamed the "Hangover" after the trip, because so many sailors made the journey hanging over the rail.

The army was very poor and unequipped. Congress called for 267,000 volunteers and over a million responded. The surplus men were given positions in Washington so they would not be disappointed. Their descendants still occupy the places and draw 186,904,337 dollars and 36 1/4 cents per year in salaries. The general in command of the

army was so fat that he had to walk up a one-way street; and he wore inner tubes for garters.

The army, composed of entirely green men, attempted to battle the Spanish. They were hopelessly mixed up until the commanders became ill. Then the subordinates took charge, and all went well. Here occurred a very important incident. As the enemy came toward the Americans, one of the men shouted, "The enemy is charging." "Don't let them have it," shouted an officer; "make them pay cash." Those of the Americans who were not rolling on the ground in helpless laughter repulsed the enemy. The ingenuity of our officers was shown, too, when the report circulated that the ene-

Election Is Over

At the time this paper comes out the citizens of the United States will at last know just who is to guide their civic ship for the next four years. Supposedly he is the best man in the country for the job—whether you as an individual think so or not is immaterial; you have probably lost enough to keep you working for a few weeks and solving the problem of why you ever voted anyway.

The world has, during these last few weeks, looked on rather anxiously, wondering just who might be nominated, and just who might be elected. It is no longer a secret; but the continents in general keep their gaze fastened on us as a nation, to watch closely what our suggestions for existing adverse conditions will be under the administration now in power.

There are serious things to be considered; there are big things to be done; the United States is a mighty nation; she could easily take it upon herself to attempt a new economic adjustment that would involve, and, perhaps, cause the recovery of our sister nations as well as ourselves.

France, England, and Germany are placing their hope almost entirely in America. The thousands that line the bread-houses of these countries are stretching out their arms, beseeching our government to try some plan, any decent plan, by which the young and old may again eat God's food.

In hearing of these creatures, we at once turn out thoughts homeward, and here we find only the same picture. Something must be done; it is the present administration that carries the burden on its shoulders. It is our greatest desire that these men do a good job; that they act with due efficiency and sound judgment; the citizens have done their part, in choosing the men for the highest offices of state; now it is their opportunity to demonstrate their worth. Good luck to them.

News of the World

Attack on Cosgrave

William T. Cosgrave, former President of the Irish Free State, was attacked by mobs of unruly men last week when he assailed the policies of President Eamon De Valera. In his address the former President said "The people of this country will learn in time that their vital interests can only be met by securing from Britain highest preferences for their goods in the British market and by asking a reconsideration of the land annuities payments." It was necessary to have police protection at the hotel where Mr. Cosgrave was staying.

Germany's Election

For the fifth time in 1932 the German voters, numbering 35,500,000 in all, went to the polls, and the results were most disastrous to the followers of Adolf Hitler. No one party acquired enough power to establish a government, but the most conspicuous gainers were the Communists, who will present 100 new members to the next Reichstag. Spokesmen for the Von Papen cabinet said that they were pleased with the results, for they concluded that it was the breaking up of Hitler's power.

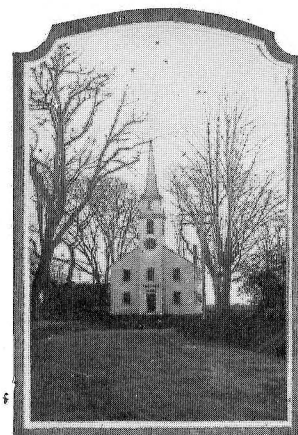

Russia's Celebration

The usual bleak, dreary, and depressed mood of the Soviet Union was forgotten last Monday, when there took place the celebration of the 15th anniversary of the Bolshevik revolution. In place of the dull atmosphere which usually prevails, the streets of Moscow were brightly decorated with tens of thousands of electric lights. Main thoroughfares were colored with miles of red bunting, flags, placards, and crowds of happy, singing young people. Josef Stalin, Soviet leader, reviewed a parade of nearly one million Russians. Pictures of the government leader were placed on shop windows and on thousands of house-fronts.

China's Silver Dollar

Due to the depressed trade in North China produce has caused a flood of silver dollars. The standard currency accepts silver dollars, but there is fear that the local financial markets will become deadlocked. The bankers propose a joint treasury to receive from members silver dollars for deposit. The purpose of this idea is to acquire a reservoir for the surplus of silver dollars caused by the over-supply of money in this district.

The Village Church

Morning worship, 10:45, sermon, "The Larger Loyalty."

The Student Fellowship will meet at 7:30 at the Manse. Mr. Charles G. Cloudman, R. I. S. C., '28, will lead the discussion. Subject, "Conventions—What Is Their Value to Society?"

All students are invited. A social hour will follow the discussion.

INTERFRATERNITY BOWLING POPULAR

(Continued from Page 1)

House 1, the latter coming out first in total score.

The first scheduled league match is set for this Friday night, between Leonard House and Beta Phi. All visitors are welcomed at these matches and new entrants are encouraged.

Lolly-Pop Day

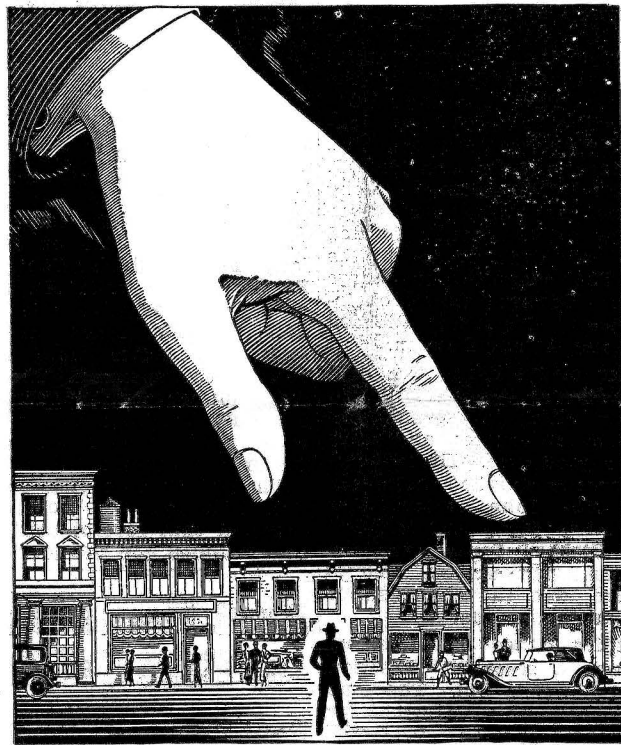

Next Monday will be Lolly Pop Day at assembly. Bring your dimes and quarters so as to stock up for the winter! Two lolly pops for a dime; six for a quarter. The sale is sponsored by the Y. W. C. A., as in former years.

Purdue has received no zeros to her discredit, in the score of 36 football games.

Pointing the way to the advertised brand

Many a "sale" made by advertising has gone to a competitor because the purchaser did not know where to buy the advertised brand. Telephone men evolved a plan to make it easy to find.

They created a "Where to Buy It" service in the classified telephone directory. There—beneath the advertised trade marks—Buick, Goodrich, RCA Victor, General Electric and many others now list authorized local dealers. Thus telephone men complete the chain between advertiser and consumer—increase the effectiveness of advertising—help manufacturers and dealers to increase sales—help consumers to get what they want!

Because they apply vision to subscribers' problems, Bell System men continually increase the value of telephone service.

BELL SYSTEM

A NATION-WIDE SYSTEM OF INTER-CONNECTING TELEPHONES

"I believe you love that old pipe better than you do me!"

Idiosyncrasies:

Why don't the characters in the daily cartoons ever get older? . . . "Little Orphan Annie" ought to be in an old ladies' home . . . In spite of his last book Michael Arlen still remains my favorite author . . . Do profs hate to give A's to students? . . . I wonder how they get the holes in spaghetti . . . Now that we have a three-cent postage rate, I doubt if she'll write so often . . . And her excuse was, she didn't have any stationery . . . Boy, how they lie and lie . . . I wonder what the freaks in the circus think of us normal beings . . . probably consider us freaks also . . . What would you do if you had only a year to live? . . . Overheard in a conversation between two girls: "He bores me to such an extent that he becomes obnoxious and actually nauseates me"; evidently she didn't like him . . . How near is near beer to beer? . . . What is the average life of a fly? . . . In time I think that there will be a tax on the air we breathe and the light we receive from the sun during the day . . . 'Tis said nine times out of ten a woman is right and the tenth time she'll argue until you admit she is right . . . Certainly have to give credit to Rudy Vallee for lasting all these years . . . I like to hear the tinkle of ice in a glass . . . I also like to smell gasoline . . . That Boston tabloid has more "typographical" errors in one issue than the leading newspaper in the country has in a year . . . I don't know whether she said she'd like to "mother me," or "smother me" . . . I've never seen a girl who smoked for the enjoyment of it . . . always for the "show" of it has been my experience . . . I never knew they had such good looking brown-haired girls in Lakewood . . . (are you convinced now, Dot) . . . I've never received a telegram in my life and I wonder how it would feel . . . Why do girls, as they get older, affect a laugh which is very grating on the nerves? . . . What do people mean when they say they awoke in a cold sweat . . . I've never seen a cold sweat . . . When I die I'm going to have a deck of cards put in my hand, because where I'm going, I'll be the only one there and then I'll be able to play solitaire . . . Why are most fat people good natured?

Beginning next week this column will cease to carry the paragraph known as "Idiosyncrasies" (do I hear a sigh of relief?) However, if you'd care to read that type of paragraph all you've got to do is to drop me a line in care of Howard's, which is just another State Institution and so is R. I. State.

Please tell me where:

The waves go when they roll back into the ocean?

All the money went in the stock crash?

The song-writers get all their ideas?

I could get some money to build a building with 365 stories and have a girl on every floor and spend a day with each one?

All the old movies go to?

"Buddy" Rogers has disappeared to?

The Lombardos get their arrangements?

A girl I know is throwing a party for all her friends! I advise her to hire a telephone booth; and then she'll have plenty of room to spare for her guests.

One of the girls who is expected to attend the above party asked me if she could borrow a nickel to call one of her friends. I gave her a dime and told her to call all of them.

Last week I promised to print the name of that co-ed who I thought was a good looking brunette. I'm sorry to say that I haven't been able to find a really good looking one on the campus, but I'll look harder next week. However, here is my idea of a good looking red-head; I just couldn't decide between two co-eds, so here are both of them: Ruth Barrows and Alice Rogers

According to a recent survey this college needs:

More secluded corners for co-eds.

Softer seats in Assembly.

More telegraph poles for dogs.

And better marks for the students.

A student of the University of Texas rides horseback five miles each morning to class. He is the only student at the university who employs this "wild west" method.

Answers to Last Week's Questions

Chesterfields are Milder

Chesterfields Taste Better

You know how it is. If a cigarette is mild—that is, not harsh or bitter, but smokes cool and smooth—then you like it and don't worry about how many or how often you smoke.

And if it tastes right—that is, not oversweet, not flat—then you enjoy it all the more.

The right kind of ripe, sweet Domestic and Turkish tobacco... the right ageing and blending... make Chesterfields milder, better-tasting... They Satisfy!

POLITICAL RALLY AT DEAN'S HOUR

(Continued from Page 1) mark, "The logical remedy for mistaken policy is a change in policy. The best interests of the country require a change in administration."

Miss Matilda Litwin, the speaker in behalf of the Republican party, opened her speech with the remark, "Our government is a government by political parties under the guiding influence of public opinion. In picking their party, people pick the one which is most representative of their view." In speaking of the platform of the party, she stated that it treats nearly forty different specific subjects. Talking on the problem of unemployment relief, Miss Litwin declared that the Republicans have adopted a plan to put wage earners on part time, so that more men may be employed. Also, unemployment has been helped by the closing of our shores to immigration. "The Republican party advocates the maintenance of a bi-partisan tariff commission," said Miss Litwin when she was discussing the tariff. Turning to the more important of the other topics of the platform, Miss Litwin went on to say that the Republicans advocate further reduction of naval armament through international agreements; the party pledges itself to protect the wheat and the cotton planters; the Republicans believe in rigid economy in the matter of reducing the cost of government; they believe in the control of prohibition by the State under the supervision of Congress; and they advocate the protective tariff. In closing, Miss Litwin asserted, "In spite of all declarations, the record of two generations discloses that the safety of the country lies in the success of the principles of the Republican party."

After the close of the speeches, Miss Peck explained the method of voting to the women's student body, and then a straw vote was held. The results were 134 Republicans, 42 Democrats, 12 Socialists, 1 Socialist-Labor, 1 Prohibitionist, 10 invalid ballots.

PROF. MITCHELL AT MANSE

(Continued from Page 1) covered the principle of the Golden Rule." In speaking, he mentioned the marvelous growths of mechanical science to explain events of the universe and to foretell future and explain all past events from a formula. We think

differently at present. As far as this idea of a formula is concerned Prof. Mitchell said that it is possible to compute the number of atoms in the human body, but it would take an archangel six billion years to read the formulas representing these atoms if he could read at the rate of light 186,000 miles per second.

The disintegration of radium has cast questioning on our conception of matter. Matter is only confined of energy; this energy is described as being made up of "quanta." Physicists cannot tell whether "quantum" has corporeal motion or wave motion. All science is in such deep water that at present it cannot tell how the universe stands.

Prof. Mitchell quoted a biochemist as saying, "Matter is thought."

If thinking is only mechanical, what becomes of the universe? Instead of degrading a person by referring to him as mechanical, the machinery is glorified.

LESSONS IN HISTORY

(Continued from Page 1) my had us trapped. "Let that be a lesson to them," shouted an officer. At this battle the enemy did the American army the greatest favor possible. They saved 1000 lives by shooting the cook.

During the campaign the men wore heavy clothing. A year after the war was over, the men received an issue of thin clothing for wear in warm climates where they weren't.

Peace negotiations began in July and it is rumored that a peace treaty was signed. Spain relinquished claim to Cuba and the U.

S. assumed responsibility for the government of the island. The United States was also given the Philippines for the purpose of creating positions for the political favorites to fill. It has succeeded admirably.

Admiral Dewey is the outstanding figure of the campaign. He is remembered for his saying, "Washington was first in war, first in peace, and third in the American League."

THE FALL OF TICONDEROGA
"Nature in the Raw"—as portrayed by F. C. Yohn...inspired by that horror-filled dawn when the bloodthirsty savages fell on Ethan Allan's gallant "Green Mountain Boys" of Fort Ticonderoga fame. "Nature in the Raw is Seldom Mild"—and raw tobaccos have no place in cigarettes.

No raw tobaccos in Luckies —that's why they're so mild

WE buy the finest, the very finest tobaccos in all the world—but that does not explain why folks everywhere regard Lucky Strike as the mildest cigarette. The fact is, we never overlook the truth that "Nature in the Raw is Seldom Mild"—so these fine tobaccos, after proper aging and mellowing, are then given the benefit of that Lucky Strike purifying process, described by the words—"It's toasted". That's why folks in every city, town and hamlet say that Luckies are such mild cigarettes.
"It's toasted"
That package of mild Luckies
