Committees Chosen for the Soph Hop

Annual Sophomore Party Takes Place Dec. 16 in Hammond Hall

Plans for the Soph Hop are rapidly taking form as the committee, headed by Chairman Joseph Prybyla, makes arrangements for a wonderful affair.

The dance will take place in Hammond Hall on Friday evening, December 16, from 9 until 1. It will be the first formal dance of the year, and will feature a unique favor.

Several well-known orchestras are being considered for the occasion. Among these are Jaque Renard, Leo Hannan, Jan Garba, Joe Roane, and above all, Jack Richmond and his Clevelanders, who are proving a great sensation on their present New England tour.

The committees are: Music, Chairman Matthew Baerber, Vera Rock, Harold Bernstein, and Austin Ley; decorations, chairman, John Hanley, Helen Baker, Michael DiMaio, and Everett Brown; favors, chairman Ernest Perry, Ethel Johnston, Ray Kelley, and Roger Stafford; floor, chairman, George Ritchie, Larry Cannon, Eddie Ryan, and Mary Van Benschoten; patrons, chairman Barbara Soules, Alice Ventrone, and Louise Keeler; refreshments, chairman, Raymond Rabinoux, Herbert Thayer and Lynette Goggin; lights, chairman, Wilfred Boudreau, David Eastwood and Robert Macintosh.

Frats Hold Dances Thanksgiving Eve

Fine Orchestras Entertain Couples at Five Different Houses

Thanksgiving Eve house dances were in vogue last week since five fraternities, Theta Chi, Phi Sigma, Lambda Chi Alpha, Alpha Epsilon Pi and Phi Mu, held dances last Wednesday evening.

Thirty-five couples at Theta Chi danced to the peppy music of Bill Bailey's Orchestra. Dr. and Mrs. Harold Browning and Dr. and Mrs. A. J. Newman were the honored guests of the evening. Francis Hutchins was chairman of the affair and was assisted by Howard Snow and Sinclair Kenney.

Phi Sigma held a very successful dance the same evening with Miff Bayek's orchestra playing for the occasion. The house was very artistically decorated with the black and gold fraternity colors. The chaperones were Professor and Mrs. Herman Churchill and Captain and Mrs. Ulmont Holley. Malcolm Hinchcliffe, chairman, and Stephen Hebb, Russell Capwell, and William Lawson very capably managed the dance.

The Lambda Chi Alpha dance was attended by 30 couples. Dance music was furnished by the "Revelers." A floor show was the feature of the evening. Several fine performances were enjoyed by those present. Mr. and Mrs. F. D. Pootell and Mr. and Mrs. W. H. Scott were the patrons and patronesses. Howard Umstead, Jack Donovan, and Frank Dunn, Jr., were in charge of the dance.

Alpha Epsilon Pi held its opening formal dance of the year. Many couples attended, and all agreed that it was "the best dance ever." Al Rosen's orchestra was very good. The outside of the house was illuminated by spotlights and an Alpha Epsilon Pi welcome sign. Representative and Mrs. Roy Rawlins were the invited guests. The committee in charge included Milton J. Finberg, chairman; J. Melvin Koppe, Burton Finberg, (Continued on Page 3)

Homemakers Hold Conference at RISC

Gov. Case, Dr. Bressler, Dr. Carroll, Speakers at Session

The Conference on Homemaking Education was held at the State College on Monday. This was the first conference of the sort ever held in Rhode Island.

Governor Norman S. Case and Dr. Raymond G. Bressler opened the conference. Mrs. Simon S. Lapham, State president of the Parent-Teacher organization, led the discussion at the conclusion of the opening addresses. Dr. Charles Carroll, director of vocational education, presided as chairman of the conference and Dr. Walter E. Ranger spoke.

The United States Commissioner of Education, Dr. William John Cooper, and Miss Emeline S. Whitcomb, specialist in home economics education in the Office of Education, Department of the Interior, came to Rhode Island to participate in the conference and to discuss with professional and lay persons interested in the domestic side of education, opportunities here for development of a more comprehensive program of homemaking education.

Dr. Cooper pointed out that at the present home economics courses are not justifying their place in the curriculum by teaching young folks, both men and women, how to make homes. He said he knew of no reason why the project method of instruction should not have a determining effect. (Continued on Page 3)

Frank Baxter to Be Here at Assembly

Alumnus, Noted Singer, to Entertain at Assembly on December 5

Frank Baxter, as many of the upper-classmen already know, is an alumnus of the class of 1914. He is one of the many Rhode Island State men who have "made good," and who in later years have returned to visit Rhody, the faculty, and undergraduates. This year, again as last year, Mr. Baxter will return and pay us all a visit on December 5.

As Mr. Baxter is a singer of renown and also a member of the University Glee Club of New York, the program which will be given by him on Dec. 5 at assembly will undoubtedly be one of great interest and pleasure for all present. (Continued on Page 3)

Chemical Society Presents Movies

The First of Several Pictures to Be Shown During Year

The Rhode Island State College Chemical Society will present two moving pictures in Edwards Hall, Thursday evening, December 1, at 8:15 p. m. These two pictures will be the first of several to be shown during the remainder of the school year.

One picture depicts the mining of sulfur by the Frasch process, the manufacture of the sulfur and its use in various products.

The second picture is a very new one and was recently shown before the chemists of New York at their annual meeting. This film is called "The Chemical Alcohol," and was produced at the plant of the United States Industrial Alcohol Corporation. It illustrates the manufacture and application of alcohol.

Everyone is invited to attend—the admission is free.

Answer Charges of Condemnation As Presented by the Polygon

The following article was sent to The Beacon by the Polygon. This resolution was passed upon by this body at a regular meeting one week ago Monday. It was the desire of the inter-fraternity council to have this resolution published. It is herewith printed:

To the Editor of The Beacon: We wish to inform you of the following:

Resolved—Whereas—1. The Sachems, or so-called Supreme Court of Rhode Island State College, has, in conducting the recent class elections, performed a breach of authority;

Whereas—2. Such body has no specific pledge of authority to conduct in the manner in which they did;

Whereas—3. This body has gone beyond its original scope as outlined in The Beacon of April 21, 1932;

Whereas—4. The Sachems have taken it upon themselves to supersede various organizations in direct violation of its original scope and purpose;

Be it in here Resolved: That we, the members of the Polygon, go on record as condemning and protesting the policies of the Sachems as pursued at the present time.

E. Towle, Sec. of the Polygon.

To the Editor of The Beacon: It is the sentiment of the Sachems that this resolution, as submitted by the interfraternity

council, the Polygon, absolutely does not reflect the sincere opinion of the student body as a whole.

Although this resolution represents the personal opinion of Polygon members, the Sachems do not believe that this resolution expresses the sentiment of the fraternities as a whole.

The Sachems question the authority of the Polygon to submit such a resolution, condemning the Senior governing body of the campus. The Sachems feel that it is beyond the jurisdiction of the Polygon to discuss questions which concern the general student body.

Lastly, the Sachems feel that an act of this kind, the submission of a destructive resolution, shows an utter lack of cooperative spirit on the part of several organizations on the campus. The Sachems have inaugurated a constructive program this year, calling for the utmost in cooperation among students and faculty alike. The Sachems have been honest and earnest in their endeavors and this body resents the implications as set forth in this resolution.

(Signed) Ruth Barrows, Secretary, the Sachems.

Delta Alpha and Wells House Win

Interfraternity Basketball League Gets Underway Monday Night

The interfraternity basketball season got under way last Monday night when Delta Alpha Psi defeated East Hall 28-11 in the National League, and the Wells House upset the Leonard House 17-16 in the American League.

The preliminary contest was very close and it was not until a few seconds before the final whistle blew that the game was won by the Wells House. Although the Leonard team had the better of the battle, a last minute shot by the eagle-eyed Broxy took the game out of the fire.

Men's Glee Club to Sing at Assembly

Plans for Several Concerts Are Being Made; Practices Held

Next Monday the Men's Glee Club will make its annual appearance before the student body at assembly, in a group of three numbers, among them being "The Song of the Jolly Roger" and "The Chorus of the Peers." Although a regular schedule of concerts has not been fully drawn up as yet, the indications are for a very successful year. Regular practice is being held in preparation for these concerts every Monday night.

The list of members of the club is as follows: (Continued on Page 3)

Rams' Hoop Season Opens Next Wed.

Strong R. I. Quintet to Play Teachers College of Bridgewater, Mass.

Rhode Island State will open its basketball season next Wednesday, when the varsity quintet plays Teacher's College of Bridgewater, Mass., at Kingston. This year's Rhody outfit promises to be one of the best in a long time, as Coach Keaney has a fine array of veterans and many outstanding Sophomores, who are giving the upperclassmen stiff competition for first team positions.

Because of all this material, the coach will probably have three teams of almost equal strength. With the exception of John Tyler, last year's captain, who graduated, the squad is the same, being composed of the following veterans: Eddie Cox, Reggie Horseman, Jack Donovan, Mickey Martynick, Art Kilroy, Tom Wright, Austin Sanborne, Ev Collins, and George Tyler, while the following Sophomores will strengthen the team: Jimmy Federico, Peter Spechman, Bud Fisher, Steve Nye, Frank Koch, Jack Martin and "Happy" Applin.

Red Cross Drive Is Successful

Campaign Conducted by Students and Faculty in Various Houses

Thanksgiving ended a successful campaign on our campus carried on by the workers for the Red Cross. Walton H. Scott, chairman of the Kingston drive, appointed a faculty member or student in each house to solicit subscriptions for the Red Cross organization here in South County. The corps of workers included Mrs. Harriet Taft, Theta Chi; Dr. John C. Weldin, Sigma Alpha Epsilon; Dr. Arthur Vernon, Lambda Chi Alpha; Capt. Thomas W. Freeman, Rho Iota Kappa; Dr. Philip Douglass, Beta Psi Alpha; Leonard Russell, Delta Alpha Psi; Warren Tallman, Phi Mu Delta; Louis Yaffee, Alpha Epsilon Pi; Ernest Kreuger, Leonard House; Prof. Ralph E. Brown, Wells House; Prof. Joseph W. Ince, Alpha Tau Gamma; Maurice Almfeldt, Phi Beta Chi; Miss Hope Jillson, Sigma Kappa; Miss Josephine Lees, Chi Omega; Miss Mabel Dickson, Delta Zeta; Donald Stearns, East Hall; Miss Mary Scott, Davis Hall and South Hall.

Aero Club Offers New Ground Course

Pilot Follet of State Airport to Conduct Ground School

A ground course in aviation will be given on the campus under the auspices of the "Little Rhody Aero Club," if enough interested members can be obtained.

This course will be given by a pilot from the State Airport at Hillsgrove. It will cover historical background of flying, theory of flight, construction and operation of planes and engines, types of motors, navigation, meteorology, and map reading. This course is the same as is being given to prospective pilots at the Airport, and was given in Providence last year for twenty-five dollars per person.

At the conclusion of the course a certificate will be granted which will be evidence that the Curtiss-Wright ground course has been completed. This course or its equivalent is a requirement before obtaining a pilot's license.

There will be sixteen one-and-half-hour lectures, with dem- (Continued from Page 3)

SOPH SENSATIONS

Can the Sophomores take it? Did they take it on the first day at P. T.? Ask any Soph about the courage test—then start back from the withering blast of torrid words that is sure to flow from his lips.

Somebody, somewhere, sometime decided that these Sophs must have some courage. The someone wasn't concerned with how much or where it was—he just wanted to know if every Soph had some. So the gears of his agile brain whirled and clacked—Presto! An idea was born.

Down to Little Rhody he came with the idea. And each Soph was compelled to stand at one end of a nice, soft gym mat with his hands at his sides, then lean forward and allow gravity to exert its force on his body. Theoretically the Soph fell flat on his chest and his courage was assured. But alas for the theory! Like many theories it failed! Flattened noses, bruised cheeks, injured ears, and aching heads were common that day.

What we can't see is—why stop at that test? Why not ap-

ply the principle all around? For instance, place a ladder reaching to the top of Davis Hall, require each Soph to climb to the top, and jump off the tower, making sure that he lands feet first. The amount of displacement in the foot bones will warn against falling arches.

Or why not make the subjects attempt to bite through one of the supports of the water tower to test the strength of their teeth?

A small drink of concentrated Sulfuric Acid would do wonders toward testing the strength of the stomach lining, and running through an atmosphere of chlorine gas successfully would indicate a pair of strong lungs.

Then again the Humane Society would probably step in and stop these tests. Some of the Sophs can't see why it didn't prevent the "courage" test last week. And incidentally, the men were told that they'd flunk if they didn't fall. Question: Did they fall because they had the courage, or did they fall because they didn't have the courage to face an "E?"

WHAT IS AHEAD?

The last few weeks of political action in the United States will go down in history. The election was, in all certainty, a landslide, denoting the firm opinion of the public and expressing a strong desire for a change of administration and a consequent change in policy.

The fact that the present leaders of the country have shown great interest in the economic situation that is now so depressing to us, was clearly evidenced by their hasty suggestion to cooperate with the President-elect and members of his party on serious problems of the nation.

For the first time in the history of the nation, a President of the United States conferred with the President-elect that is to succeed him. Hoover and Roosevelt are going to examine the facts of the war debt situation. Some decision will be made when those two great politicians meet. The Democratic platform is virtually against cancellation and so the final statement after this conference will be rather interesting to the public as a whole.

Looking into the war debt question and wondering what is to come about, we anxiously wait for December 15, when the \$126,000,000 due the United States by the debtor nations is to be paid. Whether or not we will receive the payment is quite another story.

The Europeans cry to us: "We want cancellation! We have not the money to pay! Your tariffs are too high."

The United States stands today with her industries shattered, with ships that will never sail, with ports that are now rotting from disuse, and with no mention of the thousands of hungry and homeless, the gobernadors of state answer slowly, "You must pay. We can see no other solution."

However, even with domestic conditions now at their lowest ebb, and depression everywhere confronting us, we see the point of view of those nations that call for our help. We fully realize that they also are under a heavy economic responsibility; we know that when these debts were incurred, money had little value; the same sum now represents forty per cent more purchasing power. The debtor nations are in short, getting a "tough break," due to the cyclic changes Time has wrought.

There are to be very important discussions in the next few weeks which will probably terminate in a refusal of the United States to cancel the war debts. The money will be paid and the country will suffer some more until the next issue comes up, and then we will see the glass of beer brightly shining.

IF

(With half-hearted apologies to Kipling)
If you think you can toss my heart around,
And keep me always at your beck and call;
If you would stop my petting with a frown,
And still expect me not to kick at all;
While laughing at the plans I make,
And thinking dates are made to break,
And doing nothing for my sake—Well.

If you think I will stand for this,
And go on longing for a kiss;
With feeling have my heart be stirred
While hanging on your every word,
If you think that I care for you
As I have always said I do;
And that I dream of you each night,
If you think this—why, then—you're right!

—Oscar.

Rhode Island State College Regulations

September 1, 1932

Section 1. No body of students shall organize and use the name of the college in outside activities, thus representing the college, unless approved and authorized by the college authorities.

No student who is a member of a college team shall be allowed to play elsewhere with any organization while enrolled on the college team.

Section 2. Absences. No student shall be absent from class without obtaining an excuse from the instructor in charge, who shall report any continued unexcused absence to the vice president. Attendance at assembly is compulsory. On application the vice-president may excuse in individual cases.

In case a student becomes delinquent in classwork for such causes as persistent inattention, unexcused absence, etc., or in case he makes himself obnoxious in class, the instructor is empowered to exclude said student from the class; the fact of such expulsion shall be reported promptly to the vice-president; and the student shall be conditioned in the subject from which he is excluded.

Section 3. Classification. If a student has a deficiency of ten credit hours, he shall be classified with the lower class.

No student shall be registered for more than the number of credits in the tabulated curriculum of his course, except that the registration officer may increase this number for students of exceptional ability (B grade) or to make necessary adjustments in curriculum. In no case shall any regular student be registered for less than 15 credits or for more than 3 credits in excess of his curriculum except by vote of faculty. In the second semester of the senior year only such credits shall be required as may be necessary for graduation.

Change of Course. No student shall be permitted to change from one course to another except at the beginning of the semester, provided that Freshmen may so change within the first two weeks of the year.

Section 4. Conditions. Students shall be conditioned in any given subject unless they receive a semester grade in daily work of at least 60, an examination grade of at least 50, and a final grade of at least 60. A grade of at least 65 shall be required for the removal of conditions. The examination grade shall count one-fourth of the final semester grade.

Failures shall be reported to the registrar, not in percentages, but by E or F. E signifies that the student may remove his condition by an examination. F signifies a failure that may be removed only by repeating the course in class. In both cases, the letter will count as 50 in computing averages.

Each instructor shall also fill out within 48 hours of the final examination, a delinquent card (form provided by registrar) for each student in his class receiving a condition or failure. These cards are to be sent to the dean of the school in which the student is registered, or in the case of Freshmen, to the chairman of Freshman Advisors.

All cases requiring action shall be discussed in meetings of the separate schools, or in the meeting of Freshman Advisors. Recommendations from these meetings shall be brought to the faculty as a whole for action.

A student shall be given not more than two trials to remove an E condition. If it is received at the end of the first semester, it may be removed during the second semester at the convenience of the instructor, or at the regular June or September examinations. If the condition is received at the end of the second semester, it may be removed in September or during the first semester at the convenience of the instructor. Should the student fail to remove the condition, the subject must be repeated when next given.

No examination or work for removing a condition or making up a deficiency shall be given to any person, whose connection with the college has been terminated by official action.

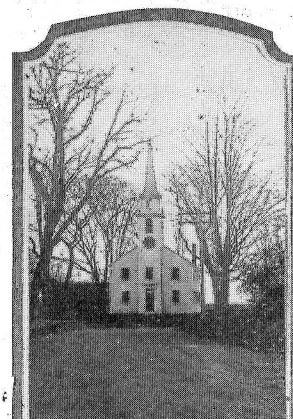

Section 5. Examinations. Final examination in any subject shall be scheduled by the Examination Schedule Committee only.

Unless changed, as herein provided, the time allotted to any fi-

(Continued from Page 1)
 fect toward later parenthood. If this is done it will be necessary to make over homemaking education, he said.
 Local and widely known authorities on education were present totaling approximately three hundred. The conference began at 10:30 o'clock and lasted throughout the day.

FRANK BAXTER HERE

(Continued from Page 1)
 For years he has been active in the musical field, and many a radio program has been favored with his voice.
 Mr. Baxter, who has so kindly arranged to come to Kingston from Yonkers, N. Y., will no doubt be extended a most hearty welcome by all who attended his program last year. To the Freshmen, who have not had the pleasure of hearing Mr. Baxter before, a most enjoyable program is guaranteed.

Now a lot of us wish we had bought stamps when they were down to par.—New York Herald Tribune.

Mr. Curtis sat and listened to the Senate for four years and still he wants to be vice president again.—New York Herald Tribune.

Many insanitary old-timers lived long, which teaches us that germs of that era were weaklings or else just gave up in disgust.—Buffalo Evening News.

Mouse Runs Up Clock

Hickory, dickory, dock. The mouse that ran up the clock in the nursery rhyme ran down again, but a Rockville mouse ran up and stayed there.
 John Whittlesey, who has repaired clocks for 40 years, and never before found a mouse inside one, climbed to the roof of the Maxwell Memorial Library to see what was wrong with the library clock. He found a mouse wedged in the mechanism, dead.
 The mouse in the nursery rhyme ran down the clock to safety when the clock struck one. The library mouse, it was suggested, got his signals mixed.

S. A. E. Housewarming

The Rhode Island Alpha Chapter of Sigma Alpha Epsilon has scheduled its housewarming for Sunday, Dec. 4. The new house will be dedicated at 11:00 o'clock that morning by various high officials of the fraternity. The housewarming will take place in the afternoon between the hours of 3:00 and 6:00, during which time tea will be served by a group from the Minerva Club, sister organization to the fraternity.
 The occasion is expected to be one of the high spots in the history of the local chapter, and a record attendance of guests is expected.

FRATS HOLD DANCES

(Continued from Page 1)
 David Levitt and Louis Yaffee.
 At Phi Mu Delta fifty couples danced to the music of Olie Nydelinger and his Brunonians. The dance was held in honor of the pledges. Fraternity colors were used in the decoration of the house. The patrons and patronesses were Mr. Herbert Emery and Mrs. Maude Whitney, Dr. and Mrs. John Weldin, Miss Josephine T. Lees and Mr. Raymond G. Bress-

ler, Jr. Stanley Smith headed the dance committee composed of Ernest Michie, Harvey Manchester, Marden Turner, Conrad Nelson and Merrill Budlong.

YOU would be astonished too, if you could see this machine that turns out 750 Chesterfields a minute... and every one as near perfect as cigarettes can be made.

But please bear this in mind. It is what happens *before* the tobacco goes into this machine that matters most. Rolling and packaging are important, but not nearly as important as the selection, blending and treatment of the tobacco.

That's why we keep telling you about the tobaccos used in Chesterfields. They're fine, mild, and pure tobaccos. We tell you about ageing and curing the tobaccos... about blending and cross-blending them... because they are things that count.

Chesterfields are milder. They taste better. Prove it for yourself... Just try a package.

Marriage Follows Campus Romance

Miss Helen McNamee, '32, Becomes Bride of Harold Pearson, '30

A Rhode Island State College campus romance culminated last Saturday evening in the marriage of two graduates when Miss Helen Jane McNamee, Class of '32, became the bride of Harold Edmund Pearson, Class of '30. The wedding took place at the home of Mr. and Mrs. Albert Damon on South Road, Kingston, the couple being married by Judge James O. Watts, the double ring ceremony being used.

The bridesmaids were Miss Edna Peckham, a classmate of Miss McNamee, and Mrs. Albert Damon. Granville M. Neil, a graduate of Rhode Island State, was best man. The ushers were Albert Damon and Philip Lyon.

The bride, who was graduated in June, was a leader in campus activities while she was here at Rhode Island. She was voted the "most beautiful" girl in her class and at the May Day activities last spring was honored by being chosen as May Queen. She was prominent in dramatics, being a member of both Phi Delta and the R. I. State College Players. Miss McNamee is a member of Sigma Kappa Sorority.

The groom, who was graduated two years ago, is employed by the State Public Health Commission as State serologist. While in college he was prominent in chemical and biological societies, and was honored with election to Phi Kappa Phi, national scholarship fraternity. He is a member of Theta Chi Fraternity.

After a short wedding trip, the couple will make their home in Greenwood.

RHODE ISLAND STATE COLLEGE REGULATIONS

(Continued from Page 2)

nal examination shall be two hours.

By majority vote of the faculty of any school, the time approved for the final examination in any subject may be changed from two hours to three hours.

An instructor may not change the scheduled hour nor the length of any examination.

The final week of each semester, except as herein provided for final examinations for Seniors, shall be devoted to final examinations.

Final examinations of the second semester of the Senior year shall be scheduled one week in advance of final examinations for other students.

All Freshman, Sophomore, and Junior courses in the second semester with a mixed enrollment of Seniors and undergraduates shall be scheduled for two final examinations, one during Senior examination period for Seniors only, the other during the regular examination period, for all students other than Seniors, provided the number of Seniors in said course be five or more.

All Senior courses in the second semester with a mixed enrollment of Seniors and other undergraduates shall be scheduled for two final examinations, as above, provided the number of students other than Seniors in said course shall be five or more.

As a general rule, not more than two final examinations shall be scheduled for any group of students in any one day.

In so far as practicable, final examinations shall be scheduled at 9-11 a. m. or 9-12 a. m., or 1:30-3:30 p. m. or 1:30-4:30 p. m.

Not more than one final examination in science shall be scheduled in any one day for Freshman and Sophomore students.

Registration officers shall have the authority after a student fails to meet the conditions agreed to at time of registration to suspend such student from all classes until such conditions are fulfilled; such action to be reported at once to registrar who shall send notice to instructors concerned.

Any subject dropped after mid-semester shall be recorded as a condition. No student having deficiencies in his course amounting to more than eight credits at the opening of the second semester, or having any first semester deficiency at the opening of the second half of that semester shall be considered a candidate for a degree at the next commencement.

Students having entrance conditions must remove all deficiencies

before registration for second year. An "incomplete" grade is to be translated into a failure, if not removed during the succeeding semester, and shall then be treated as a condition under paragraph 2. A grade may be reported as "incomplete" only when failure is caused by illness or by some comparable reason not within the control of the student.

Section 6. Grades. Semester grades are to be given from registrar's office only on the report card issued from that office. At the end of the course, instructors may inform the student if he has failed or passed the course, and may, during the course, inform him concerning his degree of success such as good, passing, failing. It is recommended that returned test papers be marked similarly, good, passed, failed. Instructors shall not give the student his grade in percentage.

Section 7. Substitution may be allowed for a language requirement, provided that, to fulfill such requirement, would mean only one year's work in the language concerned.

Section 8. Graduation Credits. The number of credits in all courses for graduation shall be laid down in the catalog.

Except in special cases, which shall be considered by the faculty, the work of the senior year must be taken in residence.

Seniors are required to possess caps and gowns and to wear them at assembly during the fourth quarter and at Baccalaureate and Commencement Day exercises. Seniors shall deposit hoods at the college office on the day preceding graduation.

Summer School Credits. 1. In order to receive credit for any summer school work, application must be made to the department in which credit is desired before the close of the college year. The proposed course of study must be satisfactory to the head of the department concerned and to the dean of the course in which the student is registered.

2. The amount of credit to be given in any case is to be determined by the department in which the credit is sought.

3. A department may make use of whatever method it considers most suitable in determining the amount of credit to be given, subject to the following limitation, viz.: that credit shall not be given for more than six semester hours for work done during any one summer.

Section 9. A fee of one dollar must be paid for:

(a) A second examination for the removal of a condition.

(b) Registration after the first day of the semester.

(c) In case of absence before a vacation or holiday for any day or part thereof, or absence immediately following vacation or holiday for each day or part thereof, except in cases excused by the regularly appointed excusing officer.

(d) Failure to return registration card to registrar's office within twenty-four hours of receipt of card from registration officer.

Section 10. Registration. No student shall begin a subject without proper registration or drop a subject without entry of such action on his registration card by the registrar upon recommendation of his registration officer.

Section 11. Preparation. Two hours of preparation for each hour of recitation credit shall be considered the proper amount to require of students. A laboratory credit shall equal two clock hours, except when the school concerned shall vote a requirement of three clock hours.

Section 12. No students shall take part in or foment hazing or anything in the nature of disorder between classes.

All cases of cribbing shall be promptly reported to the vice president together with proof. The Committee on Cribbing shall hear and act on each case and report recommendation to the president for his approval before any action is taken.

Section 13. Social Regulations. Notice of meetings affecting the college community shall be made public at least one week in advance of the meeting, especially when the election of officers or the expenditure of money is involved. Notice of all meetings, functions and social events must be filed with the registrar before publication, in order that conflict of events may be avoided.

The Social Committee shall cooperate with the student members of the dance committees, auditing accounts and endeavoring to prevent the expense rising above the estimated income.

The faculty recognizes the Aggie Ball, Sophomore Hop, Military

Ball and Junior Prom as major social functions of the college year—these dances to be held on Friday night or any night immediately preceding a holiday. Each fraternity is allowed three house dances a year; one of which may be a major dance, to be held on a night preceding a holiday. The same privilege is allowed each sorority, except it is limited to two house dances.

Mass meetings, class meetings, etc., which must of necessity be held during the week, shall close not later than 8:30 p. m.

Section 14. The registrar and assistants shall average at the end of each semester the grades of each student. On the permanent record sheet shall be entered:

- Number of credits.
- Summarized products of credits times percentage grade.
- Number of conditions.
- Percentage average.

Physical training shall be excluded from all computations of average standing.

The announcement of honors at Commencement shall be restricted to those referring to the graduating class only, and the announcement of honors for undergraduates shall be deferred to Honors Day of following semester.

A first semester Honor List shall be published by the registrar as soon as possible after the close of the semester.

The faculty shall designate each year a day in October to be known as Honors Day, with appropriate exercises to pay tribute to those individuals or groups of individuals who have established meritorious scholastic records during the previous academic year; and at such exercises the faculty shall wear full academic costume.

Honor students shall be granted special privileges.

(a) Assembly and class attendance shall not be compulsory, including dates before and after holiday.

(b) Honor students who have so qualified for three consecutive years shall be allowed absolute freedom in the choice of subjects for the Senior year to the amount of fourteen credits. When an honor student fails to maintain an average of 80% for the first semester he shall be deprived by the faculty of any further participation in special privileges that had been granted him.

Section 15. Commencement Day shall be fixed as the second Monday in June.

Section 16. All classes shall be called to order at seven minutes past the hour. All classes shall be dismissed immediately after the ringing of the bell.

Section 17. Standing committees of the faculty shall make an annual report to the president on or before January 1.

Santa Claus Comes to Frosh Co-Eds

Annual Stunt Night in Gym; Football Hero Wins First Prize

Much to the amusement of the upperclass women, the Freshman women entertained them at "Stunt Night" last Monday, Nov. 21. Miss Ruth Silverman, who was in charge of the entertainment, introduced the numbers.

Miss Barbara Haley presented the first number on the program, singing "Way Back in Old Wyoming." Next, Hope Hindle, Eleanor Crawford, Jean Humphries, Ruth Lockwood and Cynthia White participated in a milk bottle race in which they had to roll milk bottles with their noses across the gymnasium floor. The third on the program were Ruth Berry and Dorothy Bergman, who imitated President Bressler's and Coach Keane's dogs. The Mills Brothers came next in the persons of Marion Whalen, Anna Blackington, Isabel Hughes and Marion Manns. Lorette Marcotte gave a talk on "How to Become Popular Like I Am." and Romeo and Juliet were played by Marjorie Law and Adine Decatur, respectively.

A one-act play was presented by Mary Lou Gourlie, Mildred Waters, Genevieve Lynsky, Grace Harmon, Mildred Sherman and Louvan Lockwood. Luella Barnes and Mildred Hollingworth sang fraternity songs, and Eloise Bills also gave a solo. The Dance of the Seven Veils was rendered by Gladys Lon-

go; nursery rhymes were recited by Ruth Coggshall. Virginia McLaughlin appeared as a Hawaiian girl and sang "Please" and "How Deep Is the Ocean," accompanying herself on the ukelele. Next on the program came Jean Randall in the role of half-man and half-woman. Eleanor Burke sang and acted "Jingle Bells," and Camille LeClerc did the Highland Fling. Laurel and Hardy were very well imitated by Lucille Clarke and Dorothy Shea, respectively, while Ellen Dunn gave a Scotch act. Hilda Taylor appeared as a sailor singing "Only a Sailor's Sweetheart."

The Ziegfeld Chorus was represented by Kay Abbott, Alice Holmes, Ann Welsh, Ruth Law, Betty Thomas and Mary Louisa Caryl. Evelyn Oates gave a talk on a Frosh's opinion of a Soph, while Florence Petterutti gave a Soph's opinion of a Frosh. After this Ruth Abrams sang a "Rube" song; and Shirley Nemtsov imitated the actions of a little girl at the movies, in pantomime. Alice Rogers and Lois Whitaker, the Siamese Twins, were followed by Eleanor Pennine whistling "Whistling in the Dark." Esther Salomon and Evelyn Bell represented Mahatma Gandhi and Greta Garbo. They were followed by Peggy Fish, who talked on "Why I Became Interested in R. O. T. C. Officers." Jane Mead, Janet Batchelder, Mary Hawcroft, Marion Arnold, Gertrude Harris and Helen Spink participated in a mock wedding.

Then talks were given by Wanda Ilkwoz on "Why I Prefer Mt. Holyoke to R. I. S. C." and by Frances Webster on "Why I Like to Ed." Rhoda Pengelley sang "Horses," and Stella Wells, "The All American Girl." For the last number Evelyn Aaronson imitated a drunk coming home from a party singing "Show Me the Way to Go Home."

Stella Wells won the first prize for her excellent work in dressing as a football hero, singing "The All American Girl." Peggy Fish won the second prize with her R. O. T. C. impersonation.

Since each Freshman was dressed appropriately to fit her number, many amusing and original costumes were seen. The Frosh made a name for themselves at this traditional affair, and until next year we say "Au Revoir" to "Stunt Night!"

New Traffic Rules Go Into Effect

Regulations for Safety and Convenience of All on Campus

On Monday, November 28, several new faculty rules concerning automobiles went into effect. These rules are designed for the safety and convenience of all concerned and are subject to revision if changes seem desirable after they have been given a trial.

The following rules are suggested to govern the use of automobiles on the college grounds:

1. All student-operated cars shall be registered at the vice president's office within ten days of the opening of each semester.

2. No cars shall be parked on the roadway. All cars—student, faculty and other employees—to be parked on regular parking areas.

3. Student cars shall not be used for travel from class to class. Cars shall be used only for transportation to and from the campus.

4. Cars maintained by members of fraternities shall be parked on the grounds of the fraternities and not on the public roads or campus drives.

5. Certain roads to be designated as one-way roads. For the present the one-way roads to be:

(a.) Road rear of Agricultural Hall and front of Bliss and Lippitt going north and west to the junction of the State Road in the rear of Taft Laboratory.

(b.) Road in front of East and Agricultural Halls in southerly direction.

(c.) Road south of Taft going west.

(d.) Road west of South Hall and Davis going north.

For the present the following areas will be designated as parking spaces:

Agricultural Hall, rear, left-hand side of road, faculty and clerical staff.

Agricultural Hall and East Hall, rear, righthand side of road, students.

East and Bliss Halls, area between, Engineering faculty and students.

Bliss, rear, employees of Buildings Department and Boarding Department.

Lippitt, east end, Business Administration and Military Departments.

Taft Laboratory, east and north, Experiment Station staff.

Davis, rear, east side, faculty.

South Hall, open space south side, faculty and women students in dormitories.

Ranger, rear, faculty.

Gymnasium, west parking area, students and faculty.

Ram Runner Wins in Providence

Eddie Cotter Captures Annual Thanksgiving Day Marathon

Eddie Cotter, representing Rhode Island State College, added another crown to his growing list, when he won the 13th annual Thanksgiving Day marathon in Providence, displaying his great early-season form. Cotter romped home a winner over some of the leading five-milers in New England.

The Rhode Island runner finished the five mile distance in 27 minutes, 41 2/5 seconds, just 2 seconds short of a new record. During the early stages of the race, Degomar of Dean Academy pushed Cotter, but as they neared the finish, Eddie drew away from him and increased his lead as he broke the tape.

Among his victims was Gus Barbato, three times winner of the annual race.

The fellows who didn't get a vacation this season are hoping their luck will hold.—Montana Record-Herald.
