Course: NUR 683 Secondary Analysis of Health-Related Data _____

Department, College: Nursing/CON _____

Faculty Member: Kathy Hutchinson _____

Date returned to Faculty: 03-04-2020 _____

Librarian Completing Assessment: Joanna M. Burkhardt _____

Collection Management Officer: Joanna M. Burkhardt _____

Assessment of:

- Suitability of existing library resources;
- New library resources required to support the program;
- Information skills education required by the students; and
- Funds needed for library materials and services.

Please include:

1. What library holdings already exist in relevant subject categories. How much money is now allocated in the subject area?

The library has current and historic materials in relevant subject categories. The libraries have collected extensively to support the Nursing program for many years. The allocation for the purchase of monographs for Nursing for 2019-20 is approximately \$8,000. The cost of journal and database subscriptions is not broken out by department or college.

2. Does URI have the essential journals as noted in the Faculty Questionnaire?

The library has access to all the essential journals noted in the Faculty Questionnaire.

3. What new resources are required to support the course (including media, electronic, or other non-print materials)?

No new library resources are required for the support of this course.

4. What information mastery sessions will be required for the students?

Instructors may schedule Library Instruction sessions by contacting the Instruction Unit of the Public Services Department at the beginning of any semester.

5. What is the approximate cost to acquire the materials necessary? Which of these will be continuing costs?

There are no new costs to the library for the support of this course.
