Assessment of:

- Suitability of existing library resources;
- New library resources required to support the program;
- Information skills education required by the students; and
- Funds needed for library materials and services.

Please include:

1. What library holdings already exist in relevant subject categories. How much money is now allocated in the subject area?

The library has relatively few materials concerning audio media. The allocation for the purchase of monographs for the 2019-20 fiscal year is: Communications/ \$7,500; Film Studies/\$1,500. Should instructors for this class wish to expand our monographic collection in areas relevant to this course, there are sufficient funds to accomplish that task. The cost of journals/databases is not broken out by department or college.

2. Does URI have the essential journals as noted in the Faculty Questionnaire?

There are no essential journals noted in the Faculty Questionnaire.

3. What new resources are required to support the course (including media, electronic, or other non-print materials)?

No new library resources are required to support this course.

4. What information mastery sessions will be required for the students?

Information mastery sessions are not required for students in this class.

5. What is the approximate cost to acquire the materials necessary? Which of these will be continuing costs?

There are no new costs to the library for the support of this course.
