The Library Impact Statement for PSA 508 *Supply Chain Network Design* states that students will not be conducting library research in the course, and the proposed syllabus confirms this.

In response to the question about what critical journals, monographs, and electronic resources the University Libraries must have to support the course, the answer is, “The library already has access to the critical journals, monographs, and electronic resources to support this course.”

Based on my review of the Library Impact Statement and the proposed syllabus for PSA 508 *Supply Chain Network Design*, I conclude that the University Libraries can meet the needs of this course with no additional resources.

In my role as Subject Selector for the College of Business, I support the addition of this course.
