**LIBRARY IMPACT STATEMENT
LIBRARIAN'S ASSESSMENT**

Course: MHM 508 *Data Analytics for Healthcare Management*

Department, College: College of Business

Faculty Member: Prof. Kathryn J. Jervis

Date returned to Faculty: 15 August 2019

Librarian Completing Assessment: Prof. Andrée J. Rathemacher

The Library Impact Statement for MHM 508 *Data Analytics for Healthcare Management* states that students will not be conducting library research in the course, and the proposed syllabus confirms this.

In response to the question about what critical journals, monographs, and electronic resources the University Libraries must have to support the course, the response is, “In reviewing the URI library website, the following journals that are needed for the course are listed as available online through the URI library portal.” Nine journals are listed, seven of which the URI Libraries have current access to. (*Frontiers of Health Services Management* is available online only through 2017, and *Harvard Business Review* is not available online.)

Despite limited access to two of the listed journals, based on my review of the Library Impact Statement and the proposed syllabus for MHM 508 *Data Analytics for Healthcare Management*, I conclude that the University Libraries can meet the needs of this course with no additional resources.

In my role as Subject Selector for the College of Business, I support the addition of this course.

Andrée J. Rathemacher
Professor
Head of Acquisitions, University Libraries
Library Liaison to the College of Business
