**LIBRARY IMPACT STATEMENT (New Course Proposal)**  
**LIBRARIAN'S ASSESSMENT**

Subject selectors will complete this form as requested, assessing library materials and collections as detailed below. Send one copy of the assessment to the faculty member who requested it. Send one copy of the assessment to the Collection Management Officer.

Course: BPS 426 GMP Environmental Risks, Control and Monitoring\_\_\_\_\_

Department, College: BPS/Pharmacy\_\_\_\_\_

Faculty Member: Clinton Chichester\_\_\_\_\_

Date returned to Faculty: 5-30-19\_\_\_\_\_

Librarian Completing Assessment: Joanna M. Burkhardt\_\_\_\_\_

Collection Management Officer: Joanna M. Burkhardt\_\_\_\_\_

---

Assessment of:

- Suitability of existing library resources;
- New library resources required to support the program;
- Information skills education required by the students; and
- Funds needed for library materials and services.

Please include:

1. What library holdings already exist in relevant subject categories. How much money is now allocated in the subject area?

The allocation for Pharmacy for 2018-19 for the purchase of monographs is approximately \$16,000. I expect the 2019-20 allocation to be about the same. The cost of journal subscriptions is not broken out by department. The library does not have a great deal of material specific to the topic of this course, but we could purchase resources with input from the instructor(s). It appears from the description of the course that students will be accessing materials from government websites and from a database that the College of Pharmacy subscribes to, so there doesn't seem to be a great need for additional library materials.

2. Does URI have the essential journals as noted in the Faculty Questionnaire?

The essential tools needed to support this course are available to students on the web or via a database the College of Pharmacy buys.

3. What new resources are required to support the course (including media, electronic, or other non-print materials)?

There are no new library resources required for the support of this course.

4. What information mastery sessions will be required for the students?

No information mastery sessions are required for the students.

5. What is the approximate cost to acquire the materials necessary? Which of these will be continuing costs?

There are no new costs to the library for the acquisition of materials to support this course.
