**LIBRARY IMPACT STATEMENT
LIBRARIAN'S ASSESSMENT**

Course: DBA 618 *Doctoral Dissertation Project Development I*

Department, College: College of Business

Faculty Member: Prof. Christy Ashley

Date returned to Faculty: 29 May 2019

Librarian Completing Assessment: Prof. Andrée J. Rathemacher

The Library Impact Statement for DBA 618 *Doctoral Dissertation Project Development I* states that students will be conducting research in the course, and the proposed syllabus confirms this. Students will be reviewing and synthesizing theory and applied research related to a specific business problem and writing an empirical or theoretical paper that makes a contribution within the domain of their topic area.

With regard to the question about what critical journals, monographs, and electronic resources the University Libraries must have to support the course, the response is: "The journals available through ABI Inform, EBSCO Host, Science Direct, Taylor and Francis Online, Sage Journals, and JSTOR will be necessary to support the course." While this is a broadly-defined range of journals and the University Libraries cannot promise that no journal subscriptions will be canceled in the coming years, at this point in time and likely well into the future we have adequate resources to support the assignments in this proposed course.

Based on my review of the Library Impact Statement and the proposed syllabus for DBA 618 *Doctoral Dissertation Project Development I*, I conclude that the University Libraries can meet the needs of this course with no additional resources.

In my role as Subject Selector for the College of Business, I support the addition of this course.

Andrée J. Rathemacher
