**LIBRARY IMPACT STATEMENT
LIBRARIAN'S ASSESSMENT**

Course: DBA 621 *Advanced Qualitative Research Methods*

Department, College: College of Business

Faculty Member: Prof. Daniel Sheinin / Prof. Christy Ashley

Date returned to Faculty: 30 May 2019

Librarian Completing Assessment: Prof. Andrée J. Rathemacher

The Library Impact Statement for DBA 621 *Advanced Qualitative Research Methods* states that students will be conducting research in the course, and the proposed syllabus confirms this. Three example assignments are provided, at least one of which involves library resources, specifically designing a research project with a literature-based methodological justification and explanation.

With regard to the question about what critical journals, monographs, and electronic resources the University Libraries must have to support the course, the response is: "The journals available through ABI Inform, EBSCO Host, Science Direct, Taylor and Francis Online, Sage Journals, and JSTOR will be necessary to support the course." While this is a broadly-defined range of journals and the University Libraries cannot promise that no journal subscriptions will be canceled in the coming years, at this point in time and likely well into the future we have more than enough resources to support the assignments in this proposed course.

Based on my review of the Library Impact Statement and the proposed syllabus for DBA 621 *Advanced Qualitative Research Methods*, I conclude that the University Libraries can meet the needs of this course with no additional resources.

In my role as Subject Selector for the College of Business, I support the addition of this course.

Andrée J. Rathemacher
Professor
Head of Acquisitions, University Libraries
