LIBRARY IMPACT STATEMENT (New Program Proposal)
LIBRARIAN'S ASSESSMENT

The Collection Management Officer will complete this form as requested, assessing library materials and collections as detailed below, returning. Subject selectors who receive requests for Library Impact Statements for new programs should forward those requests to the CMO.

Program: Health Leadership and Administration and Quality Improvement Process
Measurement, and Information Systems Management leading to Master of Science
Healthcare Management _____

Department, College: _Accounting, Healthcare Management, College of
Buisness_____

Faculty Member: _Kathryn Jervis_____

Date returned to Faculty: _4/19/19_____

Librarian Completing Assessment: Joanna M. Burkhardt_____

Collection Management Officer: Joanna M. Burkhardt_____

Assessment of:

- Suitability of existing library resources;
- New library resources required to support the program;
- Information skills education required by the students; and
- Funds needed for library materials and services.

Please include:

1. What library holdings already exist in relevant subject categories? How much money is now allocated in the program subject area?

The library has current holdings in all relevant subject categories, both monographs and journals. The 2018-19 allocation for monographs for Business is approximately \$12,000. The cost of journal subscriptions and databases is not broken out by department or college.

2. Does URI have the essential journals as noted in the Faculty Questionnaire?

The University Libraries have the essential journal noted in the Faculty Questionnaire, except for: Harvard Business Review. The Frontiers of Health Service Management journal is only current through 2017.

3. What new resources are required to support the program (including media, electronic, or other non-print materials)?

My general sense is that the libraries have access to enough materials to support the curriculum for this program. We do not have a means to subscribe to the Harvard Business review, but students can certainly gain access to specific articles through Interlibrary Loan. No new library resources are required to support the program.

4. What information mastery sessions will be required for the students?

Information mastery sessions for any of the courses in the program are possible. Each instructor may contact the Public Services Department Instruction Unit at the beginning of any semester to schedule a class. Individual instructors should determine the need, based on their students.

5. What is the approximate cost to acquire the materials necessary? Which of these will be continuing costs?

There are no new continuing or one-time costs necessary to support this program.
