**LIBRARY IMPACT STATEMENT (New Course Proposal)**  
**LIBRARIAN'S ASSESSMENT**

Subject selectors will complete this form as requested, assessing library materials and collections as detailed below. Send one copy of the assessment to the faculty member who requested it. Send one copy of the assessment to the Collection Management Officer.

Course: \_NEU 360 Cellular and Molecular Neurosciences\_\_\_\_\_

Department, College: \_BPS/COP and INP (Neuroscience)\_\_\_\_\_

Faculty Member: \_Katharina Quinlan\_\_\_\_\_

Date received:  
\_4/10/19\_\_\_\_\_

Date returned to Faculty: \_4/10/19\_\_\_\_\_

Librarian Completing Assessment: \_Joanna M. Burkhardt\_\_\_\_\_

Collection Management Officer: Joanna M. Burkhardt\_\_\_\_\_

---

Assessment of:

- Suitability of existing library resources;
- New library resources required to support the program;
- Information skills education required by the students; and
- Funds needed for library materials and services.

Please include:

1. What library holdings already exist in relevant subject categories. How much money is now allocated in the subject area?

The University Libraries hold reasonably current and general materials on Neuroscience that would be relevant to this course. The allocation for purchase of monographs in relevant subject areas is rather scattered, as more than one subject area is relevant. There is plenty of money available for the purchase of monographs to support this course. The cost of journal subscriptions is not broken out by department.

2. Does URI have the essential journals as noted in the Faculty Questionnaire?

URI has online access to all of the essential journals as noted in the Faculty Questionnaire.

3. What new resources are required to support the course (including media, electronic, or other non-print materials)?

No new library resources are required to support this course.

4. What information mastery sessions will be required for the students?

Students in this course will not be doing library research and no information mastery sessions are required.

5. What is the approximate cost to acquire the materials necessary? Which of these will be continuing costs?

There are no new costs to the library for the support of this course.
