The Library Impact Statement for MHM 506 *Healthcare Operations & Process Improvement* states that students will not be conducting library research in the course, and the proposed syllabus confirms this.

In response to the question about what critical journals, monographs, and electronic resources the University Libraries must have to support the course, the response is, "Able to find the resources that are needed for the course at the library."

Based on my review of the Library Impact Statement and the proposed syllabus for MHM 506 *Healthcare Operations & Process Improvement*, I conclude that the University Libraries can meet the needs of this course with no additional resources.

In my role as Subject Selector for the College of Business, I support the addition of this course.
