The Library Impact Statement for MHM 509 *Law and Ethics for Healthcare Management* states that students will be conducting library research in the course. They will “write a term paper about any healthcare topic that has serious legal implications... The paper must be no less than ten pages long, exclusive of bibliography.”

In response to the question about what critical journals, monographs, and electronic resources the University Libraries must have to support the course, the response is, “Other readings (i.e. cases) noted on syllabus, which are available online, or on Lexis/Nexis (now Nexis Uni), a database available at URI.”

Based on my review of the Library Impact Statement and the sample syllabus for MHM 509 *Law and Ethics for Healthcare Management*, I conclude that the University Libraries can meet the needs of this course with no additional resources.

In my role as Subject Selector for the College of Business, I support the addition of this course.
