The members of the Executive Committee agreed to think about possible names of faculty members and discuss potential nominees on March 1.

FACULTY SENATE
Constitution, By-Laws, and University Manual Committee
Report
2/22/78

At its meeting on 1/26/78, the Faculty Senate voted to return the Manual section printed below to the C.B.U.M. Committee. This section had been presented to the Senate for information, as some editorial changes had been made by the C.B.U.M. Committee. While no explicit instructions have been given to the Committee, the discussion preceding the motion to return the Manual section to Committee clearly indicated that the Committee was supposed to consider eliminating differences between Manual regulations on leaves for graduate studies at one quarter pay and regulations on the same matter contained in the Agreement Between the R.I. Board of Regents and URI Chapter AAUP (20.2).

The Manual section is more flexible in that it allows this type of leave also for tenured faculty members, whereas the agreement restricts it to non-tenured faculty members. The C.B.U.M. Committee does not see any compelling reason to make the Manual language as restrictive as that of the Contract. We are, of course, aware that in cases of conflict the provisions contained in the Agreement apply; however, in those instances where - e.g., due to protracted contract negotiations - there is no AAUP-Regents Agreement governing matters at the University, the more flexible Manual language would apply. Also, we find it desirable for future contracts to adopt the more flexible language of the Manual, and we are communicating this to the AAUP by providing them with a copy of this report.

Further, it should be noted that, if the Senate thinks that the Manual passage printed below should be changed in substance, it should be referred to the Senate Faculty Welfare Committee for consideration.

On the basis of the above considerations, the C.B.U.M. Committee is reporting for the information of this body that, for the time being, the following section will remain part of the University Manual (editorial changes underlined):

7.60.16 Leave to Pursue Graduate Studies at One-Quarter Pay.
A member of the faculty who has served full-time for at least three years may be granted a leave of absence to pursue graduate study. This leave shall be granted for a period of one year at one-quarter pay with the understanding that the recipient shall, upon the termination of the leave, return to duties at the university for a period of at least one year. Application for the leave shall be made in accordance with procedures and time table specified for sabbatical leaves. Shortly after return to duty, the faculty member shall file with the dean of the faculty member's college a report of the faculty member's professional activities during the absence.
