LIBRARY IMPACT STATEMENT (New Course Proposal)
LIBRARIAN'S ASSESSMENT

Subject selectors will complete this form as requested, assessing library materials and collections as detailed below. Send one copy of the assessment to the faculty member who requested it. Send one copy of the assessment to the Collection Management Officer.

Program: HPR 375

Department, College: Honors Program

Faculty Members: Professor Roger LeBrun

Date returned to Faculty: February 15, 2019

Librarian Completing Assessment: Michael Cerbo II

Collection Management Officer: Professor Joanna Burkhardt

This 3-4 credit general education, honors seminar course is titled "Honors Seminar in Global Responsibility and Social Sciences" and require little research. Topics will focus on infectious diseases and "...provides an in-depth look for students aspiring to work in global and public health."

We are able to add whatever appropriate monographic needs may arise for the instructors. Our monographic holdings in infectious diseases and the biological sciences are good and any additional materials can be ordered through the Library or garnered using Inter-Library Loan (ILL).

Access to journals in this field meets the needs of the course. Our online indexes and abstracts in the sciences and social sciences are adequate. In particular, access to reference databases such as BIOSIS, Scopus, and the more general Academic Search Complete are available. Specific journal publications, such as Emerging Microbes & Infections, Nature and One Health are available online through the Library. Since there will be little research in this course, our current holdings in this field seem sufficient.

Therefore, the librarian believes that the Library can support, bibliographically, the needs of the students to be able to acquire the most out of this course.

Michael Cerbo II,
Biological Sciences Bibliographer
