LIBRARY IMPACT STATEMENT (New Course Proposal)
LIBRARIAN'S ASSESSMENT

Subject selectors will complete this form as requested, assessing library materials and collections as detailed below. Send one copy of the assessment to the faculty member who requested it. Send one copy of the assessment to the Collection Management Officer.

Program: AVS 250

Department, College: Fisheries, Animal & Veterinary Science. CELS

Faculty Member: Professor Katherine Petersson

Date returned to Faculty: January 25, 2019

Librarian Completing Assessment: Michael A. Cerbo II

Collection Management Officer: Professor Joanna Burkhardt

This new 2 credit course is titled "Livestock Judging and Evaluation" and Professor Petersson expects the students to conduct no research in this course. The main objective of the course is for students to understand "...the basics of livestock evaluation and its practical application to animal selection."

We are able to add whatever appropriate monographic needs might arise for the instructor. Our monographic holdings in the animal and veterinary sciences are good and any additional materials can be garnered through our library.

Access to journals in this field meets the needs of the course. Our online indexes and abstracts in animal and veterinary sciences specifically and the sciences generally should more than meet the demands of this course. In particular, access to reference databases such as Academic Search Complete and others are available. There are many online journals in the field that are also available online through the Library. Since there will be little research in this class, our current holdings in this field seem sufficient.

Therefore, the librarian believes that the Library can support, bibliographically, the needs of the students to be able to acquire the most out of this course.

Michael A. Cerbo II,
Fisheries, Animal and Veterinary Science Bibliographer
