Subject selectors will complete this form as requested, assessing library materials and collections as detailed below. Send one copy of the assessment to the faculty member who requested it. Send one copy of the assessment to the Collection Management Officer.

Course: NUR 382G Designing Innovations in Healthcare _____

Department, College: _Nursing_____

Faculty Member: _Patricia Burbank_____

Date received from Faculty: 12/11/18_____

Date returned to Faculty: _12-12-18_____

Librarian Completing Assessment: _Joanna M. Burkhardt_____

Collection Management Officer: Joanna M. Burkhardt_____

_____

Assessment of:

- Suitability of existing library resources;
- New library resources required to support the program;
- Information skills education required by the students; and
- Funds needed for library materials and services.

Please include:

1. What library holdings already exist in relevant subject categories. How much money is now allocated in the subject area?

   The library holds numerous current resources in relevant subject categories that will support this course. The allocation for monographic purchases for Nursing for 2018-19 is approximately $9,000. The cost of journal subscriptions is not broken out by department.

2. Does URI have the essential journals as noted in the Faculty Questionnaire?

   There are no essential journals noted in the Faculty Questionnaire.

3. What new resources are required to support the course (including media, electronic, or other non-print materials)?

   No new library resources are required for the support of this class.

4. What information mastery sessions will be required for the students?

    No information mastery sessions are required for the students. Because they are doing a major literature review I highly recommend that a library instruction session be scheduled at the beginning of every semester to assist students with database and open web search strategies.

5. What is the approximate cost to acquire the materials necessary? Which of these will be continuing costs?

    There are no new costs to the library for the support of this class.
