LIBRARY IMPACT STATEMENT (New Course Proposal)
LIBRARIAN'S ASSESSMENT

Subject selectors will complete this form as requested, assessing library materials and collections as detailed below. Send one copy of the assessment to the faculty member who requested it. Send one copy of the assessment to the Collection Management Officer.

Course: MUS376 Field Experiences in Elementary Music Education

Department, College: Music, A&S

Faculty Member: Audrey Cardany

Date returned to Faculty: 11/27/18

Librarian Completing Assessment: Jim Kinnie

Collection Management Officer: Joanna Burkhardt

Assessment of:

- Suitability of existing library resources;
- New library resources required to support the program;
- Information skills education required by the students; and
- Funds needed for library materials and services.

Please include:

1. What library holdings already exist in relevant subject categories. How much money is now allocated in the subject area?
2. Does URI have the essential journals as noted in the Faculty Questionnaire?
3. What new resources are required to support the course (including media, electronic, or other non-print materials)?
4. What information mastery sessions will be required for the students?
5. What is the approximate cost to acquire the materials necessary? Which of these will be continuing costs?

As the instructor states, there will be no research required for this course and so no library resources are expected to be needed. If students need additional background on teaching methodologies, assessment, or other concepts, the library has a strong collection of monographs, encyclopedias, and databases in music and education to support that.
