**LIBRARY IMPACT STATEMENT
LIBRARIAN'S ASSESSMENT**

Course: MAC 511 *Data Analytics for Accounting*

Department, College: College of Business

Faculty Member: Prof. Qi Liu

Date returned to Faculty: 15 November 2018

Librarian Completing Assessment: Prof. Andrée J. Rathemacher

The Library Impact Statement for MAC 511 *Data Analytics for Accounting* states that students will not be conducting library research in the course, and the syllabus confirms this. Instead they will be graded on lab assignments, class participation, a final data analytics project, and a final exam.

In response to the question about what critical journals, monographs, and electronic resources the University Libraries must have to support the course, the response is “None.”

Based on my review of the Library Impact Statement and the sample syllabus for MAC 511, I conclude that the University Libraries can meet the needs of this course with no additional resources.

In my role as Subject Selector for the College of Business, I support the addition of this course.

Andrée J. Rathemacher
Professor
Head of Acquisitions, University Libraries
