Assessment of:

- Suitability of existing library resources;
- New library resources required to support the program;
- Information skills education required by the students; and
- Funds needed for library materials and services.

Please include:

1. What library holdings already exist in relevant subject categories. How much money is now allocated in the subject area?

The URI Libraries have significant holdings in relevant subject categories, both in terms of books and journal access. The 2018-19 allocation for monographs for Pharmacy is approximately \$16,000. The cost of journal subscriptions is not broken out by department.

2. Does URI have the essential journals as noted in the Faculty Questionnaire?

URI has access to all the essential journals as noted in the Faculty Questionnaire.

3. What new resources are required to support the course (including media, electronic, or other non-print materials)?

No new library resources are required to support this course.

4. What information mastery sessions will be required for the students?

Information mastery sessions are not required for students in this class. Should the instructor wish to provide the class with information mastery library sessions, he/she may contact the Public Services Department at the University Library at the beginning of any semester to make an appointment.

5. What is the approximate cost to acquire the materials necessary? Which of these will be continuing costs?

There are no new costs to the library for acquisition of materials. There are no continuing costs, beyond the cost of continuing subscriptions to journals.
